Village Appropriation Ordinance of \$226,650 Approved by Trustees

Allowance Made for New Water Main from Ida Ave. to North Ave.

An appropriation ordinance totaling \$226,650 was passed by the Village Board of Trustees in a special meeting Monday.

This enactment is merely to permit the village to spend this amount if the money is available. The levy ordinance which follows will provide the tax money that will be available for these expenditures.

One of the major items in the appropriation is \$30,000 for a water main extension from Ida ave. to North ave. It also provides an expenditure of \$2,000 for sewer extension, and \$3,000 for new equipment and uniforms for the police.

By departments the appropriation calls for:

Administration, \$3,950; accounts and finance, \$3,850; police, \$22,000; public works and buildings, (\$5,000 for improvement to the municipal building), \$16,550; fire department, \$8,050; health, \$300; legal services, \$1,700; street, \$44,100; parking meter fund, \$6,250; insurance, \$950; parks and play grounds, \$2,000; general contingent fund, \$20,000; social security, \$1,000; off street parking fund property purchase and improvements, \$25,000; water and sewer, \$69,350; and sinking funds, \$1,600.

The items in detail are found in a legal notice elsewhere in this newspaper. The total represents a new high for possible village expenditures.

Talk Industrial Site

The Board received representatives of the Antioch Chamber of Commerce and the Active Specialty Co., who made known their wishes regarding village owned land for use as a new factory site for this industry. They were referred to committee and will be taken up at the next regular meeting.

Wm. F. Jonas, 67, Buried in Chi. Tues.

Funeral services for William F. Jonas, 67, Circle Drive, Petite Lake, were held at 11 a. m. Tuesday at the Strang Funeral home, 1055 Main St.

Mr. Jonas passed away at 1:30 a. m. Saturday, July 20, of a heart attack, following several months of failing health.

He was a charter member of the Chicago Moose Lodge No. 44 and was a baseboard heating consulting engineer by trade.

He was born December 19, 1890 and had made his home at Petite Lake, Antioch, for the past 13 years.

Survivors are his wife, Ella; two brothers, Benhard C. of Antioch, and Frank, of Chicago; a sister, Mrs. E. eth McIntosh of Portville, New York. Interment was in Mt. Hope cemetery, Chicago.

Antioch Schools Get Less State Aid This Year Than Last Year

Under the new claim for state aid based on average daily attendance of pupils, Antioch school will receive a cut this year from last year.

The reduction for the Antioch Grade school will be \$1,230 and for Antioch Township High school, \$163.45.

Other community schools receiving reductions are Emmons, \$9.69; Channel Lake, \$1,346; Lake Villa, \$2,552; Newport Community, \$578; and Gavin, \$192.

On the other hand Hickory school will get \$162 and Grass Lake will get \$154.22 more this year than last. Millburn will get \$44 more.

The total request for the county was \$2,418,698.36, a reduction of \$27,157.39 from last year.

Barbershop Quartet To Picnic and Sing

The Oak Park Chapter of Barbershoppers (Society for the Preservation and Encouragement of Barbershop Singing in America) will have its annual picnic on Sunday on the grounds of the Koberstine home, 3/4 mile east of Spring Grove near Fox Lake.

All friends who enjoy barbershop harmony are invited to attend and hear the informal program that will be presented at about 2 p. m. There will be no admission charge.

C. of C. Directors Meet

The directors of the Antioch Chapter of Commerce met at the Country House today and will discuss the fall program. The turn of honor has not been meeting this

Boats Crash, 2 Hurt On Fox Lake Saturday

Two teen-age youths of Elmwood Park were hurt Saturday afternoon when their 14-foot fiber glass boat was struck by a 16-foot in-board motorboat on Columbia Bay at Fox Lake Hills west of Lake Villa.

They were James Moxen, who suffered leg and back injuries, and Stewart Schiffman, who was cut above the left ear. Richard Guarino, a third passenger, was unhurt. He said the larger boat carrying four men hit the smaller craft near the steering wheel, tearing a large hole.

The small boat was towed to shore where it sank shortly after the boys left it. The two boys were treated by a local physician.

Library Board Votes Not to Participate In Regional Library

Will Not Send Representative To Next Meeting on August 6

The Antioch Township Library will not join the group proposing to establish a three-county regional library at Woodstock.

A meeting of the library board Tuesday resulted in a decision not to participate in the move to take advantage of the Library Services Act as discussed in the meetings attended by some of the board members, and not to send a representative to the meeting scheduled for Aug. 6.

The Board said its decision was based on the following:

1. The intent of the Library Services Act is to "promote library services to rural areas without such services and to libraries with inadequate services." We feel that Antioch Township is adequately served at the present time.

2. The funds available under the Library Services Act are limited to a period of one to five years so that, at the end of such period, having set up a \$180,000 plant as suggested, we would either have to abandon it or go to the taxpayers in the area to support it. To avoid what occurred in Kankakee several years ago where a similar project was attempted with state funds, we feel that the taxpayers must be canvassed before the Antioch Township Library Board commits the township to an unexpected tax burden.

3. The Antioch Township Library is now giving a service satisfactory to the community and we feel the need for additional services must be inspired by our people who would be expected to pay for it. This is the basis on which our library has operated for many years with gratifying improvement each year and we believe our citizens would prefer to continue in that manner.

4. For such inadequacies as may occasionally occur we have always been able to draw on the Illinois State Library which provides an excellent and prompt service.

5. We also feel that by accepting federal aid we will be acting contrary to the expressed wishes of President Eisenhower and Governor Stratton who strongly favor the state and local bodies taking care of their activities without federal aid. This we have been doing as far as our library is concerned and we are willing to continue on that basis.

6. We also are mindful of the resolution placed on the record of the recent governor's conference protesting against "federal grants to schools and libraries and the extension of federal government operations further into numerous areas of individual initiative and private enterprise."

We are grateful for having had the opportunity to hear the discussions on this subject enabling us to reach the above carefully considered conclusions. We further wish to submit that the Antioch Township Library will continue to cooperate with other libraries or communities as we have heretofore.

Legion Convention Aug. 1-4

The state convention of the American Legion will be held starting Thursday, Aug. 1 and lasting through Sunday, Aug. 4 at the Sherman hotel in Chicago. Antioch post will have its delegates. The annual parade will be on Sunday, the closing day. The Grayslake color guard, tenth district winner in competition will represent the district in the parade.

Sign Contracts Next Week

The architect for the new school building that will replace Oakland grade school with a 16-room building is conferring with contractors and it is expected that by next week the contracts will be signed, Supt. Richard Whitacre said yesterday.

DO YOUR PART FOR FARM SAFETY...

Local Girls Are Entrants In Lake Region Beauty Contest

Collector J. L. Horan Now Receiving Tax Payments at Banks

John L. Horan, township collector today began his collection of real and personal property tax for the last time.

Assisted by Mrs. Horan and Mrs. Roman Vos, he received payments on tax accounts at the State Bank of Antioch during the regular banking hours, which means that there will be no collections on Wednesday.

The schedule of place of collection is: July 25 to Aug. 3, State Bank; Aug. 5 to Aug. 10, First National Bank; Aug. 12 to Aug. 17, State Bank; Aug. 19 to Aug. 24, National Bank; Aug. 26 to Aug. 31, State Bank.

After Aug. 31 the books will be sent to the Lake County treasurer where the tax may be paid.

Collections by Horan and his assistants are expected to reach a new high this year.

Annual Appeal For Rescue Squad Fund

The Lions Club Antioch Rescue Squad Fund committee will send out letters next week asking for contributions to the fund that takes care of the expense of the squad throughout the year.

Loren D. Sexauer, chairman of the committee drew attention in the letter to the fact that operating expenses are continuous and that calls are increasing. He announced that the new truck of the squad has provided faster and more efficient service as promised and that most of the money received this year will be used to pay off the balance still owed on this equipment.

Dr. Jensen Attends State Meeting to Rid Areas of Brucellosis

Dr. G. W. Jensen, 1185 Main st., Lake county veterinarian, went to Springfield today to meet with county veterinarians, district supervisors and representatives of the Division of Live Stock Industry in planning county certification of brucellosis-free dairy cattle.

"The recent legislature provided for continuation of the battle against brucellosis in Illinois dairy herds and as fast as counties clean up and get rid of the disease they will be certified," said Dr. Jensen.

Lake county is pretty well rid of the disease and it won't take much to have it certified, Dr. Jensen said. He expects the state to start with the smaller counties first.

Wisconsin as a state is certified brucellosis-free.

Provide Own Playground

The need of a playground for children on David st. caused the fathers and sons of the community to get together and, with the permission of the owner, clean up several lots and put up a backstop for baseball and provision for other amusements, thereby keeping the children off the streets.

Lions Cancel Annual Carnival Because Bingo Called Illegal

Lake County Fair Opens, Bigger and Better Than Ever

Today 4-H Day, With Youngsters Providing Program; Crowd Large

The Lake County Fair opened today with prospects that it will be the biggest and best in the history of the association.

From the small beginning in Antioch more than a quarter of a century ago the fair has grown so that now it has its own grounds and four new buildings at its new site on Rte. 45 north of Rte. 120 near Grayslake.

While the gates opened at 9 a. m. today and judging of fine arts, domestic arts, and 4-H exhibits, poultry, rabbits, horticulture, floriculture, and agriculture were started, the official opening did not take place until the flag raising at 1 p. m.

The pet show followed immediately and at 2 p. m. the first 4-H Horse show ever staged at the fair took place.

Tonight there is a lake County Fair Queen elimination and from 8:15 to 9:30 p. m. a 4-H talent show.

The queen will be announced Saturday night.

Friday and Saturday nights will feature a spectacular fireworks program at 10 p. m.

The famous Calzavara Bar M Ranch Rodeo will stage a thrilling rodeo performance at 8 p. m. on Friday, Saturday, and Sunday nights.

In addition to the entertainment, exhibits, and displays, there will be a huge midway complete with a full line of rides.

Many new facilities including buildings, lighting, roads, and parking space have been provided for the convenience of Fair goers.

Public Service Company Asks 7 1/2 Cent Increase In Rate For Antioch

New rate schedules proposed by the Commonwealth Edison Co., parent organization of the Northern Illinois Public Service Co. before the Illinois Commerce Commission provides for increases in electric bills of about 7 1/2 per cent.

This would mean that the average residential customer would pay about 50 cents a month more. When the new rates will go into effect, if allowed by the I.C.C. would be determined by the commission itself.

There has been but one general increase in the 70-year history of the company and that was in 1954. On the other hand there have been 37 rate reductions. Proud of that fact the power company has been advertising "Little Bill" and the fact that electricity has not gone up as have other utilities.

Now the rising costs have necessitated the increase the P. S. C. announced.

The new schedules contain a provision for a flat service charge on residential accounts instead of the present higher charge for the first block of kilowatt-hours used. It is \$1.50 for the first 10 kilowatt-hours or less in the Public Service area. The present rate is 5.9 cents per kwh for the first 40 kilowatt-hours.

Two Months Intervene Between Auto Fires

Antioch firemen began almost where they left off in the two months between fire calls when they extinguished a blaze in the 1953 Chevrolet automobile of Jerry Ward at his farm home on Edwards road in Newport township Sunday night.

The last fire call before that was on May 21, two months earlier to the very day, when the firemen likewise extinguished a fire in an automobile.

Cause of the Ward fire is not known. A short circuit caused by the fire started the horn of the car blowing and this awakened Ward from his sleep. The interior of the car was badly damaged.

Art Show Aug. 1-3

The Brush and Palette club of Antioch will stage its second annual art show Aug. 1, 2, and 3 at the Ford sales rooms of Lyons and Ryan on Main st. The show is expected to exceed last year's which was quite a success.

Game Main Source of Income for Group

"We Don't Want to Do Anything That Will Discredit Club" — Officers

The Antioch Lions club has called off its annual carnival.

Dr. James W. Kopriva, president of the club, and Roman Vos, chairman of the carnival committee, made the announcement Tuesday evening following a meeting of their committees.

"Since bingo is declared illegal and that was the main source of our income at the carnival we have decided to give the carnival up. We don't want to violate the law and we don't want to do anything that will be detrimental to the interest either of Antioch or the club," said President Kopriva.

William Brook, chairman of the Ways and Means committee of the Lions club said that his committee will seek other ways of earning money through which Antioch groups will benefit.

He said that the club stands to lose between \$2,500 and \$3,000 revenue by giving up the carnival. The club was started in 1937 and had held a carnival every year since then until this year, when the carnival was scheduled for August 7 to 11 inclusive.

Contracts for rides and concessions will have to be cancelled.

Over the years the Lions club has contributed in part or wholly to such projects as the Rescue Squad, Boy Scouts, high school score board and football field lights, auxiliary police, band uniforms, community band, street lighting, Aqua Center, and other projects.

"The Lions Club of Antioch has always had a good name and we are not going to impair that in any way," said President Kopriva.

Atty. General Latham Castle recently declared bingo to be gambling regardless of whether money or merchandise is given. In many communities including Mundelein, North Chicago, Wauconda, and Fox Lake, bingo has been stopped this year.

The Lake County grand jury is said to be investigating gambling and has recommended that villages pass ordinances forbidding pin-ball machines as possible sources of gambling.

The American Legion and Knights of Columbus recently were criticized for permitting bingo at their carnival.

Brookfield Man Dies At Lake Catherine

Joseph J. Jaemen, 73, of Brookfield, Ill., died of an apparent heart attack Tuesday evening at the Cicero Mushroom club on Lake Catherine.

Attempts of the Antioch Rescue squad and Dr. Alan L. Thain to revive him were unsuccessful.

Jaemen collapsed while standing on the pier at the club's lake front.

Following an inquiry by Coroner Robert Babcox the body was taken to the Johnson Funeral Home at Brookfield.

Vandals Damage Cottage Content at Camp Lake

Wesley Orvis, 2725 Buchanan rd., Kenosha, reported to deputies that vandals had broken into his summer cottage at Camp Lake.

He said that two windows were broken and that pillows and mattresses had been cut open and the contents scattered. Two wash stands were broken.

A fisherman is said to have reported to Orvis that he had seen three small boys breaking glass on the beach near the cottage and Orvis identified the glass as that taken from his cottage. The boys, his informant said, were between 6 and 8 years old.

Receive Shell Co. Awards

Henry Ernie, Rte. 83 and County Trunk, and Nick Moos, County Trunk and Trevor road in Kenosha county, Wis., were among the 151 Shell Oil Co. station operators who received awards for improvement in gasoline and motor oil sales as well as merchandising and quality of operation of their service stations. Top winner was John Peiffle, Elwood and Belvidere, at Waukegan, Ill. They shared in the prizes amounting to \$500,000.

Economic Highlights

A number of proposals for placing ceilings on individual and corporate income tax rates have been made in late years. Some of these are phrased in very general terms and say only that the maximum rate shall be 25 per cent, 50 per cent, or some other percentage. Others are highly detailed, and offer complete plans for the relief of taxpayers.

An unusually interesting example of the latter is found in an actual bill which has been introduced by Representative Antoni Sadlak of Connecticut, a member of the powerful House Ways and Means Committee which writes the tax laws. Mr. Sadlak, to use his own words, is "convinced that achievement of a moderate schedule of income tax rates is necessary to the continued vitality and growth of our nation's economy, and to the maximum advances in the standard of living of all our citizens." His bill would bring about major reform in the income tax structure—and, perhaps of even greater moment, it would compel the big federal spending programs to compete against regularly scheduled income tax reductions.

The bill would project the reductions for each income tax bracket over a five year period. Provision is made, in the discretion of the President and Congress, for postponements of not more than a year at a time should an unbalanced budget and deficit financing threaten. Thus the rate reductions could be spread over nine years.

Income tax payers at every financial level would be benefited. The bottom rate—which applies to the first \$2,000 of net income—would be reduced from 20 per cent to 15 per cent. Then gradual reductions would be made in the progressive rates so that, at the end of the period, the peak rate would be 42 per cent, as against the present 91 per cent.

Here are some specific examples of total reductions: In the \$4-6,000 bracket, the tax would drop from 26 to 17 per cent; in the \$8-10,000 bracket, from 34 to 19 per cent; in the \$20-22,000 bracket, from 56 to 25 per cent. In the case of corporations, the normal tax would be cut from the current 30 to 22 per cent on the first \$25,000 of income, and the surtax from 22 to 20 per cent. Thus, the combined top rate would drop from the present 52 per cent to 42 per cent.

Where, under this proposal, would the govern-

ment get the money it needs to operate? Mr. Sadlak has the answer to that—and it will come as a surprise to many of us.

He points out that under existing tax rates, the budget revenues of the federal government have shown a net gain of more than \$11 billion in only two years—between fiscal 1955 and fiscal 1957. He adds: "Some of this gain reflects the impact of inflation on revenues, but the major part of it has resulted from economic growth itself."

Based on 1956 income levels, he then says, it would take an annual revenue growth of only about \$3 billion a year to accomplish the scheduled rate reductions without net revenue loss to the government. That growth is well below what most economists forecast.

Mr. Sadlak makes another interesting point—nearly 60 per cent of the total savings to individual taxpayers under his bill would fall in the taxable income brackets up to \$6,000. Only 6.3 per cent of the savings would go to those in the brackets above \$50,000. Thus, his proposal would be particularly effective in relieving "... the tax impact on new and small business, self-employed professional people, and the whole range of middle income families."

A Change in the Polio Picture

With the introduction of the Salk vaccine the polio picture in this country has undergone a radical change. Since this change has a bearing on the health of your entire family, you ought to know about it.

Here's what has happened in the past few years: Children from five to nine years old used to be one of the largest group of victims. In 1952 they accounted for 24 per cent of all paralytic cases. By now most of these school youngsters have been vaccinated and the proportion of cases is declining. In 1956 it dropped to 16 per cent of all cases. That's the bright side of the polio picture.

Of course, with a decline in one age group, there has been a corresponding rise in percentages among other age groups not yet protected by Salk vaccine.

Take pre-school youngsters under five years old, for instance. In 1952 they comprised 29 per cent of paralytic cases. In 1956 the proportion had climbed to 39 per cent. Infants one and two years old had the highest percentage of all. That's why polio authorities like the National Foundation for Infantile Paralysis urge that they be first on the vaccination list.

The next most vulnerable group in the new polio picture are teenagers and young adults from 15 to 40 years. In 1952 they comprised 33 per cent of paralytic cases. In 1956 the percentage was 34 per cent. Since polio paralysis is especially disastrous to wage earners in a family, they need protection urgently.

Think these figures over. If your school-age children have been vaccinated, that's fine. But don't forget the other members under 40 in your family, starting with the baby.

ter left on a noon plane for Los Angeles, Calif., where he joined his wife and children at the home of Mr. and Mrs. Beggs, in Corona, Calif., on a three weeks leave.

Mrs. Eddie Van Patten and children and Mr. and Mrs. William Gerber and family attended a farewell party for Rev. Gilbert Howe at his home in Kenosha Tuesday evening. Rev. Howe leaves on Friday by plane for Alaska, where he will make a six weeks Evangelistic tour of the army camps near Anchorage and Fairbanks. He hopes to reach Point Barrows.

Mr. and Mrs. Curtis Wells visited Mr. and Mrs. Carl Abbs of Wadsworth Friday evening.

Mr. and Mrs. Warren Wells and son of Gurnee visited the Curtis Wells home Sunday evening.

Joe Merville and Frank McCarthy of Zion were Friday evening callers at the H. A. Tillotson home. Mrs. Sarah Finkel of Chicago has been a house guest at the home of her son, Oscar Finkel for the past two weeks.

SP/3 Donald Stoneberg of Fort Campbell, Ky., was home from Saturday until Monday afternoon.

1/4 of Each Phone Dollar Goes to Government

No matter what you buy—food, clothing, shelter or whatever—part of the price you pay goes to support your governments, for no business is immune from taxes. The fact that 28c out of every dollar collected by the Illinois Bell Telephone Company from its customers in 1956 went for taxes should help taxpayers realize that government today costs them more than anything else they buy.

Where did the 28c tax portion of the customer's 1956 telephone dollar go? Here's the breakdown: To the Federal government went 20c—nearly all of this was income and social security taxes imposed on the Company and the excise tax imposed directly on telephone users but collected by the Company and turned over to the government. To State and local governments went 8c. In addition to local personal property and real estate taxes, municipal taxes and fees, the company paid six Illinois and Indiana state taxes, the largest of which was the 3 per cent Messages Tax levied on Illinois intra-state revenues.

Total taxes borne by Illinois Bell and its customers in 1956 amounted to \$128,645,000. This huge sum came from 16 different kinds of operating taxes which produced \$91,660,000, and from the Federal excise tax which raised \$36,985,000. Besides these 17 taxes there are unnumbered other taxes "buried" in the cost of telephone service, but it would take an army of statistical experts to determine how many there are. Examples are the sales and excise taxes on things the Company buys, or hidden taxes which suppliers of those items have to pay.

In effect, one-fourth of the total amount billed each customer over the 12 months' period in 1956 by the Company was turned over to government.

No one questions the need for taxes, because without them we couldn't have good schools, roads, police and fire protection and the other things that help make our American way of life so worth while. But, at the same time it's well for the public to know how large a part of what they pay for goods and services goes to government—and telephone service is just one example.

The first major change in hay-making in over 17 years—Hay in a Day—has been introduced by New Holland Machine Co. Using time-rated machinery, this system lets the farmer handle a batch of hay from standing crop to storage in a single day.

The number of bulk tanks on dairy farms has roughly doubled each year since 1950. Fifty-eight per cent of these tanks are in the 200 and 300 gallon size.

For Thou art not a God that hath pleasure in wickedness; neither shall evil dwell with Thee.—(Psalm 5, 4.)

God, the Creator and the Heavenly Father of even the least of us mortals, is the sum total of all the perfect love, the absolute good, that the human mind possibly can imagine—and infinitely, abundantly more. Only bountiful loving-kindness and goodness come from Him—never wrath or punishment.

STATE OF ILLINOIS ss.

COUNTY OF LAKE IN THE COUNTY COURT OF LAKE COUNTY

IN THE MATTER OF THE PETITION OF ROBERT K. RUSS and ELFRIEDA L. RUSS, his wife, TO ADOPT JAMES SHERLEY MITCHELL, a minor, and DAVID LAMONT MITCHELL, a minor.

GEN. NO. 21555

NOTICE

The requisite affidavit for publication having been filed, notice is hereby given to you, SHERLEY S. MITCHELL and to whom it may concern, that on the 16th day of July, 1957, ROBERT K. RUSS and ELFRIEDA L. RUSS, his wife, filed a petition in the office of the Clerk of the County Court of Lake County, Illinois, for the adoption of children named JAMES SHERLEY MITCHELL and DAVID LAMONT MITCHELL, that summons was duly issued as provided by law returnable on the 19th day of August, 1957, and that said petition is still pending.

Now, unless you, the said defendant, file your answer, or otherwise make your appearance in said cause, held in the Court House in the City of Waukegan, County of Lake, Illinois, on or before the 19th day of August, 1957, default may be entered against you at any time thereafter and a decree of adoption entered in accordance with the prayer of said petition.

SOCIETY EVENTS

WOMEN OF THE MOOSE BALLOT ON CANDIDATES

New candidates were balloted on by fifty members of the Women of the Moose on July 18 at the Moose Home. Mrs. Florence Morin of Chicago Lawn 110 was a guest at the meeting.

Refreshments were served by the Senior Regent, Mildred Gillum and executive and appointed officers.

On July 25 there will be a chairman and executive committee meeting to be held at the Moose Home at 8 p. m. to set up the new calendar for the year.

All officers and chairmen are requested to be present.

Engagement Announced

Mrs. Anne Dorfer of Ivanhoe has announced the engagement of her daughter, Nancy Louise, to Edmund Joseph Roberts, the son of Mr. and Mrs. Walter Roberts of Lagoona Subdivision, Antioch.

No wedding date has yet been set.

Members of the Krahn family held a reunion at Kenosha County Fox River Park Sunday, July 21. Over 100 relatives were present at a pot-luck dinner served at noon. The afternoon was spent in visiting and there were games for the children. A collection of pennies from the group was presented to the youngest person present, the five month old son of Mr. and Mrs. Gene Krahn of Kenosha.

Mr. and Mrs. Harry Greenlee returned Saturday, July 20, from a visit at the home of their son-in-law and daughter, Mr. and Mrs. John Hacker and family of Madison, New Jersey.

Mr. and Mrs. Herman Grenzmann returned from Phoenix, Ariz., recently. They plan to re-settle here.

To Finish ROTC Training

Ronald M. Hamelberg, 21, son of Mr. and Mrs. Edward H. Hamelberg, Rte. 4, Antioch, is scheduled to complete six weeks of annual ROTC training early in August at Fort Lee, Va., with members of the University of Illinois cadet program.

Hamelberg, a 1954 graduate of E. G. Foreman High School, Chicago, is a member of Acacia and Phi Chi Eta fraternities and Scabard and Blade society.

Parents of Son

Mr. and Mrs. Marvin Brazile of Antioch are the parents of a baby son, born Sunday at St. Therese hospital, Waukegan.

Misses Deedie and Mary Tiffany of Tiffany road, left Antioch Monday for a vacation at their cottage at Copper Harbor, Michigan.

Mr. and Mrs. George Macek and three children of Cicero, were guests of Mr. and Mrs. Beebe Lasco, Sunday.

A joint meeting of the Veterans of Foreign Wars and the Auxiliary was held Monday. The event was social, members spending the evening at cards. A joint meeting will be held every fourth Monday hereafter.

Margaret Moorman attended the institute for educational secretaries at Indiana University, Bloomington, Ind., last week. She is secretary at Antioch Township High School and the school board.

Darlene Harms of Lake Villa, was the Future Homemakers of America representative at the East Bay Camp, Lake Bloomington, during the past week. A sophomore at A. T. H. S. she is joint chairman of her chapter.

Judith Pyles, Girls State representative from Antioch will report to the American Legion Auxiliary at 8 p. m. Friday on her experience at the mythical state convention, which she attended at MacMurray college.

They Made Their Own Dresses

Cathy Arndt of Lake Villa and Judy Zellbor of Lake Villa shown modeling dresses that earned them the right to go to the Illinois State Fair in the 4-11 delegation from Lake County.

GARDEN CLUB ENTERTAINED AT PATROVSKY HOME

Mrs. Joseph Patrovsky, Sr., entertained 25 members of the Antioch Garden Club at her home Monday, July 22. A pot luck picnic lunch and swim had been planned but because of rain the luncheon was served indoors. After the business meeting, the ladies heard and discussed articles on the care of roses and daylilies read by Mrs. Kennedy.

The three members who had won ribbons at the Grayslake Flower show were complimented, and it was announced that some members intend to have entries at the Lake County Fair his week.

The present group of officers were asked to continue for another year, and all accepted the invitation.

Fox River Grove north of Wilmet last Sunday was the scene of the Leo Buchta family picnic. Those present were the Buchtas' daughters, Mr. and Mrs. Clarence Modlin of Zion, Mr. and Mrs. Bert Tarnowski and family of Waukegan, Mr. and Mrs. Ralph Schwerz and family of Waukegan, and Mr. and Mrs. Peter Jecovicus and family, Antioch. Also present were their three sons, Mr. and Mrs. Leo Buchta Jr. and family of Zion, Mr. and Mrs. Irving Buchta and family of Antioch, Mr. and Mrs. Kenneth Buchta and family of Lake Villa. Their 14 grandchildren were also there.

George W. Anderson, Jr., recently returned to this country from Morocco, North Africa where he had been working with the Air Force. Anderson, a technician for the Air Products Company, is now receiving special training in the production of oxygen at the Fairbanks Diesel School in Beloit, Wis. He will soon be assigned to the Army Engineer Corps in Alabama.

Mr. Carel Foss is the new Youth director and Parish worker at the Trinity Evangelical Lutheran church in Long Lake. He is taking the place of Edwin Maas who has become a chaplain in the Army.

Mr. and Mrs. Donald Masopust recently moved here from Berwyn, are making their home in Naber's Subdivision. They have purchased the Young home.

A.T.H.S. Summer Band Presents 2nd Concert

Antioch Township High School's summer band will present their second outdoor concert on Thursday evening, August 1st at 7:30 p. m. The concert will be presented on the school lawn.

Featured soloist at this concert will be tenor Ken Smouse. Mr. Smouse is vocal director of the high school. He was formerly associated with the San Diego, Calif., Starlight Opera Company. Selections to be performed by Mr. Smouse include "Night and Day" and "I Love a Parade."

Occupying the other feature spot will be a popular style instrumental trio with Jay Cribb on the trumpet, Frank Albert on string bass and Mike Wolff playing the drums. The band music will include themes from Cesar Franck's Symphony in D minor, Harold Walter's "Irish Salute" and other popular and classical selections. Marches to be performed include "Them Basses" and "Invercargill."

The High School Music Association will hold an ice cream social at the concert.

Band to Take Trips
On Friday, August 9, the Antioch Township High School Summer Band will perform at the Kenosha County Fair. On Monday, Aug. 12, the band will travel to Springfield for a performance at the Illinois State Fair.

The Antioch Rainbow for Girls will hold a bakery sale Saturday, July 27, at 9 a. m. in the Ford Garage. Betsy Frazier is chairman of the project.

Everett Oftung, owner of the Frostee Sno Company, will appear on the "A. M. in Chicago" television program Monday morning between 8 and 9 o'clock. Mr. Oftung is to be interviewed about his unusual occupation—that of manufacturing artificial snow.

Paul Dreiske of Long Lake is spending the week at the A. Harold Olson home on Lake Catherine.

Mrs. Norman Palmer and daughter Patty of Berwyn, Pa., arrived today (Thursday) for a two week visit with Mr. and Mrs. Joseph Patrovsky Sr.

Antioch High School Summer Band to Compete At Illinois State Fair on Tuesday August 13

Antioch Township's high school band again will play at the Illinois State Fair.

The band will be among 46 high school organizations performing for either superior, average, or undeveloped ratings. Bands will be in five classes according to the size of the school enrollment.

Last year at its appearance the Sequoia won top rating.

Winners of the average and superior ratings will receive medals to be worn on the uniforms and the school will receive a trophy. The most outstanding band in its class will receive the William G. Stratton award.

Director Louis Chenette has been conducting the band this summer and is priming the players for their appearance at 10 a. m. Tuesday, Aug. 13. The band will go to Springfield in buses on the preceding Monday.

To give the 60 players an idea of what good band music is like Director Chenette took them to Grant Park in Chicago for a concert a week ago yesterday, and to the Northwestern University campus yesterday to hear the varsity band concert.

Antioch Gave \$82.15 For Doughnut Tags Of Salvation Army

Doughnut Day tag sellers in Antioch raised \$82.15 for the benefit of the projects of the Salvation Army at the annual tag sales on June 14. Mrs. Margaret Gaston, chairman announced.

She credited the success to the women who took charge of the campaign while she was hospitalized, and called the donations generous.

The Chicago area raised \$157,506.21.

Lake Villa's contributions amount to \$82.10, only five cents less than Antioch. Mrs. Fred Bartlett was the Lake Villa chairman.

These communities will be privileged to keep one-fifth of the amount collected for local relief work.

Exam. for Carrier Out of Antioch P. O. Announced by Dept.

Postmaster Kufalk announced that an examination for rural carrier out of the Antioch post office will be conducted by the department at a date to be announced later.

Applications for the position may be made until Aug. 13. The applicants must reside within the delivery area of the Antioch post office and must have lived there a year preceding the closing day of the applications. They must be 18 years old.

The post to be filled is route 4 now carried by Tom McGreal through temporary appointment.

Auxiliary News

Dinner Party

Sixteen past presidents and members of Antioch Unit, American Legion Auxiliary enjoyed a get-together dinner at Joe and Helen's Little Acres, Loon Lake, Monday evening. Past presidents attending the party were Carolyn Horan, Helen Osmond, Agnes Hills, Ann Heath, Eva Gaylor, Maud Johnson, Rose Kennedy, Deborah Van Patten, Lucy Himens, Del Janneke, Dorothy Horan, Vera Horton, and Pearl Anderson, three unit members, Addie Horton, Ellen Swenson and Lydia Edwards. Several games of cards followed the dinner.

Girl Stater to Report

Antioch Unit will hold a regular

meeting Friday, July 26 at 8 p. m. at which time Judy Pyles, Girls Stater sponsored by the Unit, will be present to give a report of her week at MacMurray College, Jacksonville, Ill., attending Girls State session.

Letters to The Editor

Dear Sirs:

This is the news of the Jamboree:

Monday, the tenth day: An English Boy Scout ate lunch with our troop. We went to a campfire of a troop from the Delaware camp.

Tuesday, the eleventh day: Had free time most of the day.

Wednesday, the twelfth day: Started packing our packs and duffel bags.

Thursday, the thirteenth day: Took a train to Philadelphia. We visited Carpenters Hall, Christ Church, and Independence Hall. We went back to Valley Forge. Had the closing campfire at the Arena. Rusty Draper sang.

Friday, the fourteenth day: Finished packing and tore up camp, took a bus to Philadelphia. Took off for Chicago from Philadelphia National Airport at about 3 p. m. EDT and arrived at O'Hare Field at 5:56 p. m. CDT, a very tired bunch of boys, but with an experience never to be forgotten.

Your correspondent,
Gayle Augsburg

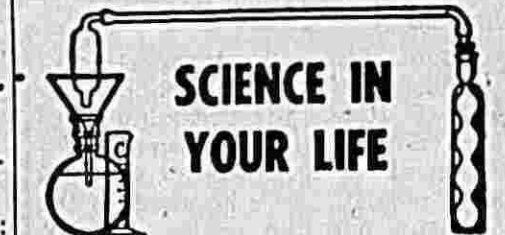

Auto Races Saturday

Saturday night will be Tony Bettenhausen Night at Soldier Field in Chicago when the USAC 100-lap national championship auto race will be run.

Bettenhausen who turned in the fastest qualifying time ever recorded at Monza, Italy, will be honored by the fans and drivers alike. He will drive an Offey powered roadster of the latest type while Burnay, Parsons and others will be in USAC Offey midgets.

Recovering From Heart Attack
Hanford E. Shepard, manufacturer representative, residing at 415 Hardin st. in Antioch is reported making gradual recovery from a heart attack he suffered a week ago Tuesday at his home. He is expected to be in Victory Memorial hospital for the next month.

SCIENCE IN YOUR LIFE

Summer Without Joy

Thousands of Americans get no joy out of summer. For them it means sleepless nights and agonizing hours gasping for breath. Many are forced to spend their vacations in bed, so oppressive is the polluted air of summer for victims of bronchial asthma.

Even the coming of autumn brings no relief to some sufferers. Dr. Robert F. McCombs, professor of postgraduate medicine at Boston's Tufts University, reports that worry and emotional upsets can trigger asthma attacks just as serious as those caused by pollen.

Indeed, in many cases anxiety is directly linked with the disease.

Fortunately, asthma attacks can often be controlled with modern drugs. One of the newest developments, for example, combines a tranquilizer with a hormone. Called Ataraxoid, the drug is designed to relieve the annoying symptoms of asthma and at the same time, ease the patient's fears.

Doctors caution against placing heavy, dust-catching rugs in the bedrooms of asthma patients. Instead of waxing floors, gloss them with furniture polish mixed with mineral oil to keep down the dust.

Try to maintain room temperature near 70 degrees. Keep the air moist with a vaporizer or steam kettle. Doctors often advise asthma patients to eat light, easily-digested foods during acute attacks because heavy foods hamper breathing.

SAFETY AT THE ROADSIDE PICNIC SITE

Attractive, pleasantly situated roadside stops now provide you with a welcome break in your journey. When you see that roadside table or picnic rest ahead, pull over well to the right hand side of the road so that you can slow down without interfering with regular

traffic as you decide to stop, look the place over. Drive slowly in the area, park your car where indicated. Clean up your debris so others can enjoy the site, be sure your fire is extinguished before you leave. Take care in pulling out on the highway as you depart.

Antioch All-Stars Lose To Libertyville 3-0 in Little League Contest

The Antioch Little League All-Stars lost to Libertyville Friday night in a hard fought contest 3 to 0.

Unable to get their bats going against the speed of Bob Lightbody, the Libertyville Ace hurler, they were able to get only two hits. Dan Yates and Henry Lundblad accounted for the two hits for the Antioch squad. Lightbody won his own game with a home run over the center field fence to produce the winning run in the fourth inning. Bill Osga pitched for the Antioch squad and gave up six hits with Jimmy Brownlee behind the plate. The Antioch squad played flawless ball in the six inning game and all who were at the game enjoyed the close contest. The lineup for the game was as follows:

Libertyville	Antioch
Sabrys, cf	Brownlee, cf
Sheahan, 2b	Yates, cf
Stagge, 1b	Kosar, 2b
Lightbody, p	Schlunz, 1b
Rothchild, ss	Hogan, 3b
Adams, 3b	Horn, ss
Mellon, c	Osga, p
Frederich, lf	Kood, lf
Serfling, rf	Lundblad, rf

The Antioch squad had Wayne Bentel coaching at first base and Doug Lang at third base. Also on the Antioch squad were Jim Schmidt, Tom Furlan and John Lear, who the coaches planned to use in the next scheduled game.

William Lang, president of the Antioch Little League, worked the public address system for the game. He expressed appreciation for the wonderful support the Little League has received this year. Mr. Lang stated that without the help of the mothers, who run the refreshment stand; the fathers, who have helped with the field maintenance, and coaching; and the Antioch business men, who have sponsored teams, little could have been accomplished in the program for the boys. He also said that the players and coaches appreciated the excellent attendance by the Little League fans, and promised them a continuing schedule of good baseball and sportsmanship for the remainder of the 1957 season.

Salvation Army Now Conducting Institute Northwest of Antioch

Leadership training and skills, and eight different courses in Bible study are among the classes scheduled for the Territorial Bible and Leadership Institute being conducted by the Salvation Army until Aug. 2. The institute is held at the Army's Camp Wonderland, six miles northwest of Antioch on County Highway SA.

An estimated 150 corps cadets, corps leaders and officers are attending the 10-day session that combines religious study and outdoor recreation. Students range in age from 14 years up to the oldest, James Nielson, 82, of 4327 S. Keating, an active member of the Army's Englewood corps.

Among the teachers is Walter Dinsdale, member of the Canadian Parliament and former assistant professor at Brandon college, Brandon, Manitoba. Officer Joseph Fiedoral of the Crime Prevention bureau of Illinois will be a guest speaker. Inspirational services will be led by Commissioner Claude E. Bates, Central territorial commander; Colonel William G. Harris, chief secretary, and Mrs. Harris, and other Salvation Army officials.

The evening programs, beginning at 7:30 p. m. July 23 through Aug. 1, are open to the public, says Major Edward Deratany, institute director. A pageant, "The Valiants," a Galilean meeting on the shore of Center lake which adjoins the camp, missionary and campfire meetings, films, and a candlelight service are scheduled.

Antioch Fire Dept. Amends Its Bylaws; Fire School Planned

The Antioch Fire Department met Tuesday and revised its bylaws, bringing them up to date to meet changed situation. The department is now under the direction of the Village Board which approves new members and expenditures.

The by-laws had not been changed since the department was an independent organization.

Fire Chief Edgar Simonsen and Verne Barnstable attended a meeting of department of the Lake County Firemen's assn. last Thursday at Gurnee and planned a fire school which will be conducted over the next eight months at Grayslake.

Simonsen is a member of the committee planning the school. Radio Station WKRS has contributed \$250 for the expense of the committee in setting up the training program.

The school will start some time in August.

Verne Barnstable was appointed to the executive committee of the association and Earl Pape to the Youth Benefits committee.

tractors dragged 500 tons of ice over 647 miles of ice to Kel. science base in Marie Byrd son. Operation Deep Freeze turn

C. of C. Erects Signs Welcoming Visitors to Antioch

Signs welcoming travelers to Antioch and announcing this village as "The Shopping Center of the Lakes Region," have been erected by the Antioch Chamber of Commerce at the east and west edges of the village on Rte. 173, north and south limits on Rte. 83, and the south limit on Rte. 59. A sailing boat and a motorboat bearing a fisherman decorate the signs.

Champion and Blue Ribbon Winners in 4-H Show

Happy over their winnings at the 4-H Style Show Monday are these Antioch girls and their mothers and advisers. They are, left to right, Cindy Brenna, titled grand champion among the beginning sewing contestants, and her mother, Mrs. Wallace Brenna, D. J. Miller, blue ribbon winner; Mrs. Dudley Kennedy and her daughter, Patricia, a blue ribbon winner; and Miss Mary Herman, assistant youth adviser for Lake County.

Marquis Once Refused To Kiss Hand of Lady

WASHINGTON—A pair of gloves now in the Smithsonian Institution recalls an incident in the early history of Baltimore. They were worn by a belle when the Marquis de Lafayette visited the Maryland city. When he met the lady, the Marquis bent gallantly to kiss her hand, only to halt short of performance.

There, staring him in the face, was his own portrait, carefully worked on the back of the lady's glove. Lafayette could not, he explained, kiss his own likeness.

Many of today's gloves do much more than serve their basic purpose of warming and protecting the hands. Special gloves are now made for special purposes. To name a few, there are fireproof gloves, rubber gloves for surgeons and electrical workers, and electrically heated gloves. A surgeon's glove impregnated with lead has been perfected to allow doctors to work with their hands constantly exposed to x-ray.

Extra Leisure Time Changes Way of Living

NEW YORK—Increase of leisure time is bringing the United States and other modern industrial nations to a new stage of civilization, says August Heckscher, Director of the Twentieth Century Fund.

"The working day has been shortened," Mr. Heckscher notes. "Two decades hence the five-day work week is almost certain to have been reduced to four. Vacations have been lengthened, and meanwhile at both ends of the life span—in youth and in age—the period uncommitted to a regular occupation has been extended."

Free time—and perhaps leisure time—is now within the grasp not of a small group of society as it has been through most of history; it is promised for all, and all seem determined to pursue it as a goal. Mr. Heckscher says. "The consequence," he points out, "must not only affect the economic system, but the whole quality and texture of the country's life."

Texas Is Host
AUSTIN, Tex.—The State of Texas was host to 8,400,000 out-of-Texas visitors in 1956. They spent \$379,000,000 while in Texas. A survey by the State Highway Department indicates that the average visitor spent \$7.71 per day.

A new low-cost baler twine that is longer and stronger than imported henequen brands has been introduced by New Holland Machine Company. A bale of the twine is 10,000 feet long—nearly 2,000 feet longer than a bale of henequen twine—and it has a tensile strength of 290 pounds—25 pounds stronger than the henequen.

Careful Selection Urged in Books For Sick Friend

CHICAGO—When selecting a book for a sick friend, it's well to consider the book's effect on his morale, a hospital librarian says.

Writing in Today's Health, Rose Burket, Benton Harbor, Mich., pointed out that a book can do much for a patient, provided it is wisely selected. It should be one that can be used "now," she said.

The psychological effect of getting a book beyond the patient's capacity is not good. The patient may reason, "I'm not getting well. I can't even read a book." Choose a book with good print that is not too long—one that the patient looks forward to reading as a pleasant occupation.

An inflexible rule for hospital librarians that should also be observed by friends is: "never give a patient any book you have not read since he may identify himself with some unfortunate character or incident," she said.

If the main character of the book died of a heart attack, the book would be an unfortunate choice for a heart patient, while for a new mother or someone with a fracture the incident would have no personal meaning.

All patients lead temporarily restricted and abnormal lives, so books with neurotic characters or horror scenes that may inturb to disturb the patient should be avoided, Mrs. Burket said.

Feared Lizard Is Actually Harmless

LOS ANGELES—One of the most feared reptiles in South Africa, the vivid blue-headed Agamid lizard, is actually harmless.

Dr. Raymond B. Cowles, zoologist at the University of California, Los Angeles, who studied the reptile on a recent African tour, says the lizard is greatly feared by all natives even though many know it is non-poisonous.

The villainous reputation of the reptile may be related to a native legend, Dr. Cowles says. According to the legend, God gave the message of death to this lizard and the message of eternal life to the chameleon. The darting speed of the lizard enabled him to win the race over the slower, more hesitant chameleon. Thus by chance man is mortal.

In North Africa related forms of the Agamid lizard are hated by the Mohammedans. They give as their reason for hatred the animal's proneness to head-bobbing, which they believe is an intolerable mimicking of their bowing to Allah.

Predict Record Year For Insurance Buying

NEW YORK—It looks like another record year for life insurance in 1957, the Institute of Life Insurance reports.

In the first half of the year, the buying of new life insurance has been nearly 30 percent larger than a year ago and if the present pace continues, 1957 may see a total of \$70,000,000,000 in purchases of new life insurance.

Purchases in the first six months were an estimated \$33,000,000,000, about \$8,000,000,000 more than a year ago. The greater part of the rise was accounted for by ordinary life insurance policies, the purchases of which were up some \$5,000,000,000 in the half year.

As a result, life insurance outstanding in the country at mid-year is estimated at \$437,000,000,000, up \$24,000,000,000 since January 1 and \$45,000,000,000 more than twelve months ago.

"These huge life insurance gains in '57 should mean the best progress in many years in widening the margin of family financial protection over the inflationary cost of living," Holgar J. Johnson, Institute president, said.

Biggest Concrete Dam Now Under Construction

WASHINGTON—Bulldozers have begun to gnaw at the banks of California's Feather River, clearing land for what is scheduled to be the world's biggest concrete dam.

When completed, 730-foot-high Oroville Dam will harness a stream that flooded disastrously in 1955. Its output of hydroelectric power will almost equal that of the Columbia River's Bonneville Dam. And it will become a mighty link in the irrigation system that turns the Golden State's Central Valley into a horn of plenty.

A green trough 500 miles long, Central Valley separates the Sierra Nevada from California's Coast Ranges. Nearly 60,000 farms and 2,000 factories thrive on its 12 million level acres.

Plenty in Fishing
MIAMI—Salt-water sports fishing in Florida is a \$200,000,000-a-year industry, according to a survey by the State Board of Conservation and the University of Miami.

The estimate was based on interviews with more than 6,000 fishermen.

Weather Predicting Peculiar Knack of Seminole Indians

WASHINGTON—Still relatively primitive, the Seminole of the Florida Everglades predict hurricanes as much as a month in advance.

They have their own curious version of the great Flood of Noah and an even more curious creation legend in which the story of Cain and Abel is mixed incongruously with the Christian tradition.

Punishment for crime is usually in the form of whipping administered by a relative. For murder the penalty can be death at the hands of the family of the offender, if it is inflicted within 5 days. Otherwise the slayer gets a respite until the next "Corn Dance," which may be several months away.

These are among the beliefs and customs of the Seminole related by Dr. Frances Densmore, research associate of the Bureau of American Ethnology, in a publication on the music of these people issued by the Smithsonian Institution.

Ability of the Indians to predict disastrous storms far in advance puzzles weathermen. For instance, Dr. Densmore relates, the great hurricane in the fall of 1926, one of the worst ever to hit the area, was known to the Indians at least 4 days in advance. They were so certain of it that they persuaded the Indian agent to move all his charges to a safe place, and thus they were entirely prepared for the catastrophe.

Rare Disease Puzzled Doctors

CHICAGO—A case of "seal finger," a disease usually found only among Scandinavian sealing expedition members, has been reported in the midwestern United States.

The disease, called "Spekkfinger" (blubber finger) in Scandinavian, occurs so rarely in this part of the world that it has been described in American medical literature only once before.

The midwestern case occurred to a St. Louis fur company employee who worked as a blubberer scraping fat from the inside of seal skins during an expedition to the Pribilof Islands in the Bering Sea.

Near the end of the season, one of his fingers, which had been cut, began to swell and become painful. American doctors, unfamiliar with the disorder, unsuccessfully treated it with "hot soaks," lance and drainage, and finally penicillin. Eventually an older company official suggested it might be seal finger. Tetracycline was given and the finger healed.

A MATTER OF MONEY

by WALDMAN

When Lady Godiva rode through the streets of England without clothes, it was to save her subjects money. Her husband, Lord of Coventry, said he was no more willing to reduce oppressive taxes than was his wife willing to ride around unclothed—so she showed him. (The taxes went down.)

A queen of Madagascar figured out a way to beat the old adage that says "you can't take it with you." Before she died, she had a casket made of 30,000 gleaming U.S. silver dollars riveted together.

Lindenhurst

Mrs. John Selzer - Correspondent
Telephone Elliott 6-1172

Mrs. Leonard Johnson and daughters, Phyllis, Cheryl, and Debbie, with Judy Strano of Chicago were visitors Tuesday of Mrs. John Selzer. Mrs. Johnson and Mrs. Selzer were classmates in St. Francis School in Rockwell City, Iowa.

Mrs. Eugene Baker are receiving congratulations on the birth of a daughter on July 17.

Mr. and Mrs. John Selzer called on Mrs. Eva Wolff on Tuesday evening at Victory Memorial hospital where she has been a patient for several weeks because of a broken hip she received in a fall at her home. Mrs. Wolff is progressing very well.

Mr. and Mrs. Craig Henderson are the proud parents of a daughter, born on Friday, July 19.

Mr. and Mrs. Harold Gnoske are the proud parents of a son, born recently. This is their first child. The vehicle tags and the dog licenses are now on sale at the home of Mrs. Evelyn Hay, Briar Lane, the village clerk.

Mrs. Jane Jackson and sons recently returned from a three week visit in the home of her parents in Mississippi.

Linda Caldwell has returned from a three week visit in the home of her grandmother in Coldwater, Mich.

The Lindenhurst Men's club baseball team played the Mundelein team here in Lindenhurst on Sunday, winning the game but day, winning the game.

Mrs. Lowell Graves and children returned Sunday from a two weeks' visit in the home of her parents, Mr. and Mrs. Lawrence Sterling in Maywood. During this time Mr. Graves was at Camp Riley Military Reservation in Little Falls, Minn. He was with the Heavy Mortar Co. of the Waukegan National Guard.

Mr. and Mrs. Frank Simecek became grandparents for the seventh time on July 14, when a son was born to Mrs. Simecek's son and wife, Mr. and Mrs. Royce Johnson of Chicago. The young man has a brother, Gary, at home. The baby is named Wayne Royce.

The Lindenhurst Little League Lions team was defeated by the Waukegan White Sox Sunday at Waukegan. The score was 5 to 2.

Sunday supper guests of Mr. and Mrs. John Selzer were Keith Daily, Bob and George DeSart of Chicago.

OUT ON A LIMB

By Stumpy McCulloch

This jeweler was teaching his new son-in-law the business. "Here," he said, "is my best money maker. These watches cost me fifteen dollars each, and I sell them for fifteen dollars."

"That's impossible," the boy scoffed.

"Ah, my boy!" sighed the older man. "You forget something—the profit comes from repairing them."

Trees can be mighty useful to farmers living in real sandy areas. Seems like tree belts fit well into the soil bank conservation plans and also cut wind erosion.

Heard from one of them university professors who says that a combination of bromegrass or some sod builder between rows of trees can help "firm up" sandy soil enough to allow a little cultivating and alfalfa seeding.

One farmer down in the sand country is taking the advice. He's planning to plant strips of cedar, green ash, and Chinese elm on a portion of his soil bank land.

Trees will be spaced at intervals of 20 rods. He'll seed bromegrass between the trees and eventually plant alfalfa.

Just seems no end to the uses for trees on a farm!

Well, sir, I keep getting reports from all parts that we're sure winning the overall battle with forest fires. Alabama reports setting a record for control over forest fires in 1956. Seems like 6,187 wild fires burned a total of 143,729 acres of the 19,990,098 acres of woodland, about 0.72 per cent of the total.

Up in the big timber territories owned by member companies of the Southern St. Lawrence Forest Protective Association only two acres were burnt over last year compared to 8,859 in 1955. 'Course they do admit they had an unusually wet summer, but still an all, mighty fine work!

Did you know that willow bark and roots were brewed by the Indians for treating fevers? That's right and seems like it worked, too.

"Lips that touch wine shall never touch mine," said Suzie. And after she graduated she taught school for years and years and years.

So long! See you next week!

Card of Thanks

I wish to thank all my friends and relatives for the many cards and gifts I received while in the hospital, which made my stay more pleasant.

3 Garrett Educators To Address Methodist In Next Four Services

Guest speakers at the Antioch Methodist church during the time the pastor, the Rev. Howard C. Benson, is on vacation will include three outstanding educators from Garrett Biblical Institute, Evanston. Dr. William Case will be the speaker Sunday, and on the following Sunday, Dr. Otto Baab will speak.

On August 11 and 18, Dr. Samuel Laeuchli, a resident of Basel, Switzerland, will be the speaker. Dr. Laeuchli came to Garrett campus in September and assumed the position of associate professor of History of Christianity. He previously was on the faculty of the 1955 summer session.

Dr. William F. Case, who will speak Sunday, is professor of education and administration at Garrett. Dr. Case, a graduate of Ohio Wesleyan University in 1940, received his doctor of philosophy degree in education at Union Theological Seminary and Columbia University in 1953.

He formerly served as the secretary for the Board of Education of the Ohio Annual Conference of the Methodist church.

Speaker at Methodist Church Sunday

Prof. William F. Case, Garrett Institute

EDDIE the EDUCATOR

says

Unlike the dodo bird, good teachers are still available if we will attract them.
Illinois Education Association

Therefore if any man be in Christ, he is a new creature: old things are passed away; behold, all things are become new.—(II Corinthians 5, 17.)

Through our Savior and Redeemer, Lord Jesus Christ, in real repentance we can receive God's forgiveness and tender mercy. In that moment, in His strength, we become in truth a "new man" completely—leaving behind the shame and sins of the past.

800 Attend 4-H Demonstration, Style Show Cynthia Brenna is Grand Champion Beginner

More than 800 4-H Club girls, leaders and parents attended the annual 4-H Home Economics Show at the Antioch Township High School Monday at which time demonstrations and sewing projects were judged.

Cynthia Brenna of the Antioch Acorns won signal honors when she was named grand champion in beginning sewing for the cotton skirt she made. She is the daughter of Mr. and Mrs. Wallace Brenna of Petite lake.

Joanne Miller of the Volo Busy Bees won the grand championship in the advanced clothing dress review, and Tedi Dodge of the Grayslake Jolly Bunch was awarded the grand championship for her demonstration on "Preparation of Chicken for Stewing." She will give the demonstration at the Illinois State Fair when the Lake County girls participate in the state program Aug. 13-15.

Other food demonstrators chosen

to go to the State Fair are:

Catherine LaMagdeleine of Hawthorn Handy Maids; Jeanette Daly of Mundelein Maidens; and Judith Ann Johnson of K. P. Club of Gurnee.

Alternates chosen were: Margaret Paulsen and Sandra Stephens of Millburn Maidens.

In addition to Joanne Miller, 11 other clothing models were selected to go to the State Fair. They are:

Cathy Arndt of Clever Clovers (Lake Villa); Judith Zelbor of Clever Clovers; Susan Edwards, Ruth Redmond and Janice Sneesby of Fair and Square of Gurnee; Peggy Drazine of Jolly Bunch of Grayslake; Charlotte and Sandra Parker, Maxine Simmons and Joan Devereaux of Mundelein Lassies; and Judith Paradise of Tip Top Teens, of Libertyville.

Alternates are: Jean Schwemm of County Clovers of Mundelein; Carol Adler of Merri Stitches of

Gurnee, and Sharon Alwart of Wauconda Village Belles.

Three dresses will be sent to the State Fair for exhibit for outstanding workmanship. They were made by Jennifer White of Merri Stitches of Gurnee; Barbara Wall of Merri Stitches of Gurnee, and Ann Duane of Mundelein Lassies.

Alternates are: Carolyn Thies of Mundelein Lassies, Cynthia Schultz of Santa Marians and Frances Wiser of Volo Busy Bees.

Additional State Fair winners will be chosen on Thursday, July 25, (today), when 4-H Booth Exhibits, Foods, Flower Arrangements and Room Improvement exhibits will be on display and judged at the Lake County Fair grounds. Mrs. Mary Rose, McHenry County Home adviser, will serve as judge. The girls from each of the 37 Home Economics clubs in the county will have separate booths at the fair. These booths are planned and set up by the 4-Hers and their leaders under the direction of Mrs. Helen Volk, County Home adviser, and Miss Mary Herman, Assistant Youth adviser.

A high velocity gun that uses steam-heated helium instead of gun powder to propel bullets is being fired at the Naval Ordnance Laboratory, Silver Springs, Md., to test the flight characteristics of projectiles.

Flood Victims Alerted: Have Furnaces Checked

Northern Illinois Gas Company cautions all customers who had space heating equipment which was under water during the recent flood not to re-light furnaces until motors and controls have been checked by their own heating service men.

E. D. Sheehan, vice president in charge of operations for the utility said that flood waters may have damaged motors, pumps, gas valves or other parts of furnaces, and delaying service may result in costly replacement of parts later.

He pointed out that the inspection and possible repairs of gas heating equipment at this time will have the furnaces in tip-top condition before cold weather.

Reviewing the flood damage to gas appliances in homes, Sheehan said that approximately 20,000 calls for service were received by the utility during the emergency.

He said the company regrets any inconveniences during the emergency and appreciates the patience and cooperation of customers during a period when the utility's normal capacity to answer service calls was placed under a terrific strain.

KEEP POISONS AWAY FROM CHILDREN

Most family homes contain poisons that should be kept out of a child's reach. Store them in high cupboards where they can not be easily reached by youngsters. Label all bottles properly for your own information. For safety, do not store extremely hazardous combustible liquids such as gasoline, or naphtha in the home. Keep poisons out of the medicine chest if young children are around and could reach them.

WANT THE TRUTH?

Up to 6,000 traffic-accident deaths this year won't be "accidents" at all!

Forty thousand Americans will die in traffic accidents this year, according to the present mounting rate. And nearly six thousand of those deaths will be crimes—because of driver negligence—according to the FBI!

HERE'S HOW YOU CAN HELP STOP THESE TRAGEDIES

1. Drive safely and courteously yourself. Observe speed limits and warning-signs. Where drivers are careful and obey the law, deaths go DOWN!
2. Insist on strict enforcement of all traffic laws! Wherever traffic laws are strictly enforced, deaths go DOWN!

Double success story—the car, the man

What is behind the sensational success of Lincoln, fastest growing fine car in America? Perhaps it is this: that with a certain kind of man, the preferred mark of success is never the most obvious, the most common symbol. He chooses Lincoln for this and other reasons: for distinguished new beauty that sweeps back in sheer, clean lines—from Quadra-Lite Grille to out-thrust rear blades. For performance that

challenges them all, with the mightiest V-8 engine in Lincoln history and its new, quick-acting Turbodriven Transmission. For comfort—from Lincoln's spacious elegance and road-smoothing Hydro-Cushioned Ride. For convenience, too—even the door locks and ventilation windows are electric! See this most uncommon fine car today at our showroom. Unmistakably the finest in the fine car field.

Millburn Home Sunday will be held at the Millburn Congregational church July 28. This will be the fourteenth annual Home Sunday. Sunday School and church services at 11 a. m. will be in the Masonic Temple. The Rev. T. S. Sampson, pastor of the First Congregational church of Lombard, will be guest speaker at the Sunday morning service. Immediately after the service a covered dish dinner will be served in the church dining room. Rolls, coffee, butter and dessert will be provided. Come and bring your friends.

The Devotional Study group met this (Thursday) morning at 9 o'clock at the home of Mrs. William Bonner on Grand ave.

About 100 guests were present at the open house for Mr. and Mrs. Howell Kenimer, celebrating their 25th wedding anniversary Sunday afternoon at the Millburn Congregational church.

The Order of Rainbow for Girls attended the Grand Assembly at the Conrad Hilton hotel in Chicago from the 11th to the 13th of July. Those attending from Millburn were Mrs. Eric Anderson, Rebecca Anderson, Marcia Augustine and Barbara Young.

Mr. and Mrs. Rudy Slinka and children of Denver, Colo., were guests for three days last week at the home of Mr. and Mrs. L. H. Messersmith.

Mrs. Harley Clark and son, John, spent from Friday until Monday at the home of Mr. and Mrs. Raymond Hauser at Monominee, Mich.

Mrs. Lyman Bonner and daughters, Nancy and Kathie, were dinner guests at the Leo Stanczak home in Waukegan Friday.

Mrs. Lester Pilsard of Farmer City, Ill., Mrs. Richard Pilsard of Woodstock were callers at the home of Mrs. Harley Clark Monday afternoon.

Guests for a picnic dinner at the home of Mr. and Mrs. Herbert Graham on Sunday were Mr. and Mrs. William Micken and family of Lampson, Wis., Mr. and Mrs. Edward Melton and children of Waukegan and Mr. and Mrs. Don Voightlander and son, Michael, of Kenosha, Wis.

Ronnie Edwards of Libertyville spent Monday with his grandmother, Mrs. Frank Edwards.

Mrs. Linda Gobel and William Harris of Franklin Park were Sunday guests at the Kenneth Young home.

Mr. and Mrs. Clarence Hauser of

Paris Corners spent Sunday afternoon at the Frank Hauser home. Eugene Prange, son of Mr. and Mrs. Herbert Prange, is a surgical patient at St. Therese hospital, Waukegan.

Mrs. Joe Rosie of Ontario, Canada, is visiting her daughter, Mrs. Herbert Prange, and also another daughter, Mrs. Blanchard Weaver at Winthrop Harbor.

Mr. and Mrs. Herbert Prange spent last Tuesday at Hines hospital in Maywood, where Mr. Prange had a medical check-up.

HEALTH TALK

Summer Nuisances

While the summer months provide numerous opportunities for pleasure, they also bring many discomforts. Why? Because insects run rampant, inflicting their bites and stings, and poisonous weeds flourish. Persons exposed to these unpleasant sources may endure hours of misery, the Educational Committee of the Illinois State Medical Society observes in Health Talk.

Chiggers, for example, are one of the worst offenders. These tiny mites, known medically as Trombicula irritans, hook on to the skin. They do not burrow into the skin. Once the tiny red bug, as it is also called, attaches itself to the skin, it feeds on lymph or blood, producing an irritation that causes intense itching within twenty-four hours. The skin appears to have a rash, caused by the inflamed blisters that develop.

Chiggers are found in tall grasses and weeds, but they also thrive in short grasses. A person lying on the lawn, for example, is an open target for chigger bites.

Sprinkling flour of sulphur on the stockings or underclothing is one way to prevent chigger bites. After exposure, one should bathe, covering the body with a heavy soapy lather. Once the itching develops, however, application of certain medicinal preparations will reduce the itching.

Scratching the area produces a secondary infection, which prolongs the discomfort. The itching reaches its peak usually on the second or third day, when it begins to subside.

Another summer nuisance is poison ivy. Because of its colorful appearance, seasonally varying in shades of russet, green and brown the plant is more apt to attract than repel. But to sensitive persons, the sap these growths harbor is the offender.

Most cases of poison ivy are caused by direct contact with the plant, although some cases come

from handling clothes, pets and garden implements contaminated by the oily sap.

The first symptom of the poisoning is a burning and itching sensation. Then a rash and swelling develops, frequently accompanied by either small or large blisters. When exposed to the poisonous growth, a thorough washing with strong laundry soap will help prevent or alleviate the condition.

The best preventive, however, is to avoid the plant. This can be done by recognizing it. One significant feature is that it always grows in groups of three accounting for the expression "Leaflets three, let it be." Usually the leaves are slightly notched, varying in length from one to four inches.

The summer months are also hard on the skin. Excessive heat, and over-exposure to the sun affect the skin. Severe sunburn is dangerous, and an inflamed irritating rash,

known as prickly heat, is extremely uncomfortable. Certain skin infections, such as ring-worm, also increase during the summer months. These discomforts can be best avoided by keeping the skin dry and well ventilated. The use of dusting powders and frequent bathing aid in keeping the body cool and comfortable. Yes, the summer months bring their joys and discomforts, but the judicious application of common sense will help to prevent the latter.

Back Seat Driver Not Just A Nag

"Watch out—you'll kill us all driving like that," said the wife in the back seat clutching the children to her side.

"Oh, shut-up," said the husband as he gripped the steering wheel tighter and pressed the gas pedal closer to the floor.

Just such tableaux are enacted each day as families spin along the nation's highways with "back seat" riders lashing the horseless carriage driver with unkind remarks.

But the "back seat driver" instead of being a thorn in the operator's back, needling him with caustic comment, can be a valuable co-pilot according to an Institute for Safer Living survey.

Six-hundred couples across the nation were interviewed on their spouses' "back seat driving" techniques.

Advice from wife to husband beginning with "honey" was much better received than the same suggestion prefaced by "Look, Buster," the survey showed.

If the advice was given sympathetically and wisely it could be a great force for automotive safety, the couples agreed.

In a total of 2,740 emergency "calls" remembered by the drivers as coming from the "back seat" nearly a thousand of these helped avoid accidents or traffic violations.

When men are in the back seat they not only call the attention of their wives to oncoming danger but also tell them how to handle the situation. Women, the Institute survey shows, seem willing to let hubby handle the situation after calling his attention to the trouble.

But if either spouse was thought to be trying to get even for the morning's burnt toast rather than trying to help the driver the "suggestion" usually wasn't accepted.

The survey uncovered these leading "alerts" given most frequently by "back seat drivers."

Speed was the most common cause of comment. Indication of the value of this comment comes from the fact that the suggestion was taken favorably twice as often by both sexes as it was rejected. But tact was necessary or it was usually ignored.

The second most frequently made comment was on following the car ahead too closely. But the warning "Don't crawl up his back" hardly helps matters. When the suggestion was made diplomatically to a spouse it was considered favorably forty per cent of the time—helping to avoid a pile up of cars on the highway.

One of the best accepted sug-

gestions of all, the survey showed, was a comment about a driver's tiredness.

Here again the "Honey, you've had a hard day" approach was much better than "Hey, dopey, wake up." Comments on the operator "taking chances" was accepted by both sexes about fifty per cent of the time.

As this type of suggestion implies a direct criticism of the driver's skill and judgment—most preferred not to be questioned on it by the "back seat driver."

Here again more favorable response was obtained by the "fifth column" than by the "blitzkrieg" approach.

Arthur S. Johnson, Director of the Institute, believes all of these back seat comments are good because they follow the principal that four eyes and four ears are better than two.

Mr. Johnson stated that if "back seat" drivers will remove the "sting" from their tongues and substitute courteous warnings or suggestions, they will help cut the accident toll on the highways by becoming valuable co-pilots.

Food Prices Stable This Week; Minor Downward Changes

Chicago—This week's "dull retail market" shows prospects of food prices remaining generally unchanged from a week ago except for minor deviations mostly in the downward trend.

Meats are expected to reflect continued current high-level prices for a reasonable period, with some major-demand economy beef and pork cuts taking a penny or two drop, in some cases due to backing up of distribution. Beef steaks, however, are expected to continue high on warm weather demand. Generally, the live cattle market shows a narrowing price spread between grades as heavier weight but fewer beefers represent greater total poundage. Better feeding factors remove beef from last year's

"distress market" conditions. It is the improved quality-quantity situation that is producing a "price ceiling" at retail levels.

Hogs have reached the high point price-wise on increased volume, and live prices sag. The spring pig crop arrivals precluded higher pork prices. Lamb and veal remain basically unchanged.

Poultry holds unchanged with turkey and chicken (fryers and roasters) still rated top value. Eggs edge up just slightly because of warm weather, reduction of flocks and lower production, again a normal seasonal situation.

Fresh produce volume recovers from recent weather setbacks, aided by influx of local surrounding-area shipments to bring the expected downturn in prices for key items.

Groceries, frozen foods and related lines are relatively stable at all levels of the market.

Based on these conditions, the weekly University of Illinois con-

sumer service survey of food prices in metropolitan Chicago indicates these standard values for the week ending July 27:

Meats—Frying chicken, turkeys, roasting chickens, beef pot roast, lamb shoulder roast, pork chops. Dairy—Large eggs, cheese spreads, ice cream. Fruits—Cantaloupe, peaches, plums. Vegetables—Tomatoes, sweetcorn, cabbage.

If you have not received your tax statement, it may have been returned for lack of proper address. Make inquiry at the bank.

JOHN L. HORAN

TOWN TAX COLLECTOR

One look, one ride, and you'll find more to be proud of in a Chevrolet. No other low-priced car quite comes up to it for fine finishing touches—and sweet, smooth and sassy performance.

This one *wants* you to get choosy! The fussier you are, the more Chevy can show what it's got inside, outside and in performance.

Take the solid way a Chevy is built. It's the only car in its field with Body by Fisher—sturdily put together, with a look of sub-

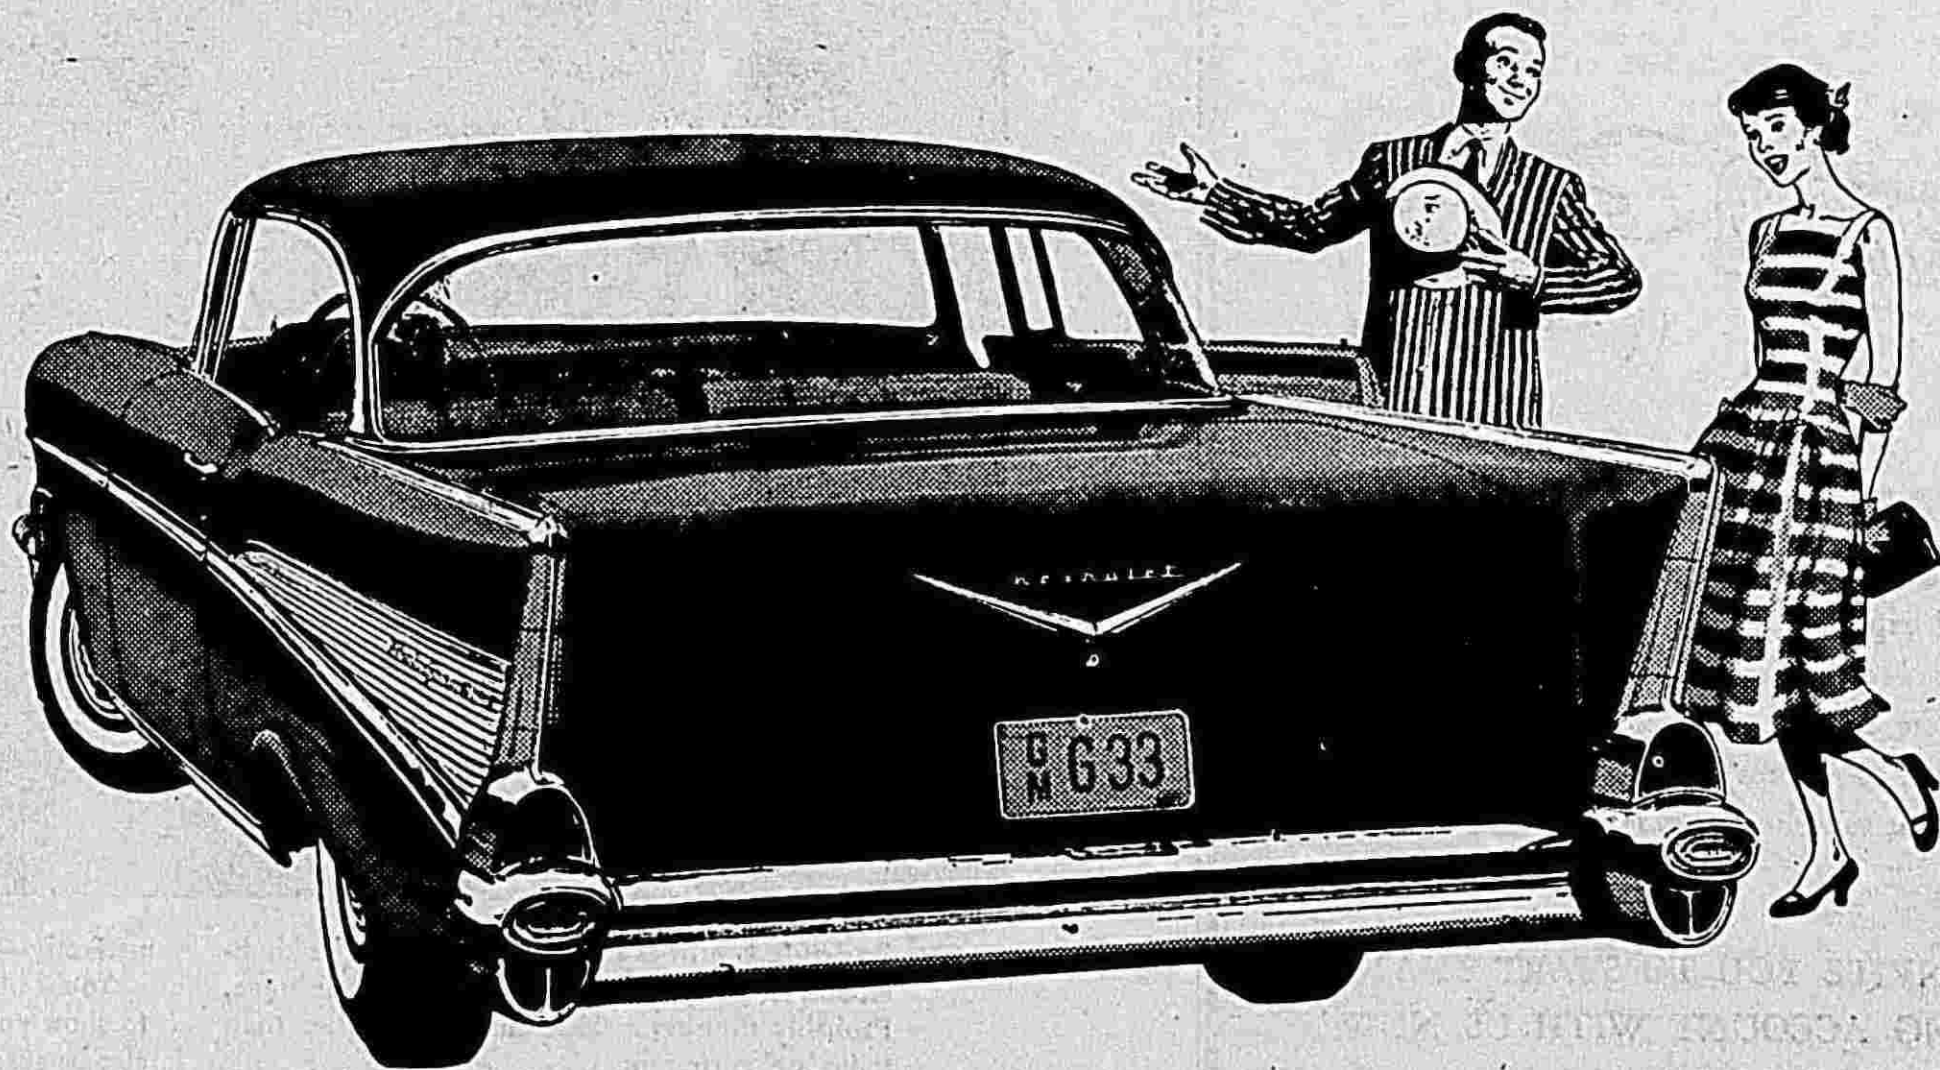

stance other cars in its price class haven't quite captured. Everywhere you look, fine finishing touches confirm the craftsmanship that goes into a Chevrolet.

Chevrolet's response and performance are pretty special, too. There's a well-what-are-we-waiting-for spirit in the engine, especially when you show a Chevrolet a mountain. And you'll do a lot of looking to find comparable smoothness, steadiness and nimbleness on the road. If you do find them, you'll be in the high-altitude prices—for sure. See a Chevrolet at your dealer's now.

MORE PEOPLE DRIVE
CHEVROLETS THAN ANY

YESTERDAYS

LOOKING BACK 30 YEARS

Summer days, vacation days, sizzling hot languid days smothering all physical or mental activity, or pleasant, comfortable days, stimulating and conducive to all forms of entertainment or relaxation. These are not the times to sit down to reminisce and remember, or for the younger folks, to make an imaginary journey back to the days of their parents' youth. But later on, perhaps, when the sun goes down, and a faint, tantalizing breeze is traced by a slight movement of the trees, the time is right for some lively conversation eventually turning to a backward glance at days gone by. Perhaps these items taken from summer issues of the Antioch News of thirty years ago will bring to mind some little half-forgotten treasures of a more personal past.

August 4, 1927

Paving of Depot Street was begun last week by the contracting firm of Darrow and Barron. Pouring of cement on the west section began yesterday. It is expected to be completed in 10 days.

The second big derby was held at the Antioch Palace last Wednesday evening. Eight couples started in the race. Phil Anderson and his partner won first place; Mr. and Mrs. Dupre, second; and George Cermak and his partner took third place. The race was four times around the track.

In the Fox Trot contest Thursday evening Phil Anderson and Hilma Rosing were presented with silver loving cups. They were chosen from nine couples, some of the very best dancers in this part of the country.

The water level in the chain of lakes rose eight inches.

Antioch's Chautauqua will begin with evening entertainment Monday, August 15. The four day

show will be given by the United Chautauqua Company and sponsored by the Antioch Business Club.

The first evening there will be presented one of the "greatest animal performances in the world," "Animal Circus."

"The Whole Town's Talking," the play now breaking attendance records in New York City, "Smiling Bob" Briggs, and "Daddy Long Legs" are other headliners on the program.

Ground was broken Monday for the erection of the new plant of the Corona Fountain Pen Company on North Avenue. The plans specify a modern fireproof steel and brick structure, 50x98 feet to be electrically equipped.

1927 is a year of great building for Antioch and the lake region. On Lake Catherine Dr. Warriner is building a summer cottage, and extensive repairs are being made on the Fitzgerald properties by contractor, Vincent Dupre.

Virgil Felter is erecting a new home for his own occupancy in Felter's Subdivision.

Lake Marie's California Ice Subdivision is the site of the erection of several new homes. Robert Preiss of Chicago is also having a home built there.

Cepek's Subdivision, north of Antioch is being improved by a group of summer cottages under the supervision of a Chicago firm, the James A. Annas Co. The Sobaski home is to be a permanent residence completely equipped with modern conveniences.

In Antioch the Nick Boker cottage and the new home of Mrs. Anna Kelly are being erected on North Main street. Mrs. George Webb just added a sun parlor and is having it repainted and decorated.

Mr. and Mrs. W. H. Osmond and Mr. and Mrs. John L. Horan and

family drove to Chicago Sunday to give the Horan children a day's outing at Lincoln Park.

Mrs. Peter Laursen and daughter, Lillian, spent the week-end with Mrs. Laursen's sister, Mrs. John Thompson at Kenosha.

In spite of the rain which held the attendance down below the mark it would normally have reached, the seventh annual farmer's picnic held at Diamond Lake last Wednesday drew a big crowd that enjoyed every minute of the day crowded with activities.

Entertainment was provided by the music of the Allendale school and vaudeville acts by the Victor LaSalle and Loretta four and Sunny Jim, the clown acrobat.

The oldest Farm Bureau member present was J. J. Barnstable, 71 years old, from Lake Villa, and the youngest was Lee Kane of Diamond Lake. The prize for the member coming the farthest went to F. H. Faulkner of Russell, who traveled 30 miles to attend the festivities. The largest was J. J. Yore who tipped the scales at 268 pounds.

July 28th

The five year struggle for an ornamental lighting system commonly known as "the white way" for Main Street was revived recently when the board of local improvements, acting on the advice of Attorney Runyard, appointed W. F. Ziegler to spread an assessment against the property along the business district to defray the cost of installation. Mr. Ziegler is busy on

the project and necessary legal steps are being taken to get the improvement under way by September.

W. A. Rosing and Frank Huber made a trip to Detroit Tuesday after a new Studebaker car for Mr. Rosing.

Word has been received from the O. A. Nelson auto party that they have reached California and after touring the state will start home on the southern route.

A social will be held on Dr. Jamison's lawn Tuesday evening, July 26th. Proceeds are to go for the Tower Hill fund for 1928.

The tendency to "step on the gas" in Antioch landed 39 motorists in the toils of the law during the month of July.

The favorite speed of those in a hurry was around 35 m.p.h., some opened up at 40 m.p.h. and Theodore Vornbrach of Chicago showed natives what 50 m.p.h. looked like and paid \$5.00 for the privilege before Justice Tarbell.

The rate of milk production per cow in this country has increased 20 per cent in the last 10 years, and is expected to rise another 20 per cent in the next 10 years.

Nothing gives your kitchen the modern look like a modern electric range

and nothing cooks cleaner, cooks cooler or cooks food faster!

Today's trend is to electricity—in the kitchen and in every other room of the modern home. Probably nothing reflects this trend better than today's electric ranges.

They're trim, attractive and easy to use. You get exactly the heat you select. No guesswork. And you'll cook everything from peas to pot roast,

perfectly—first time you try.

You'll like a lot of other things your dealer has to show you about today's electric ranges (you'll also be surprised how easy it is to own one). And, no matter which model you choose, you can be sure it will be as modern in the years ahead as it is today.

Illinois Tax Facts

The 70th General Assembly, in a three-part packaged program, has set up the machinery for the equalization of property tax assessments within a county. Since 1946, the State has equalized between counties by issuing county multipliers. However, because townships assess at various ratios of so-called 100 per cent value, a single county multiplier does not cure internal inequities. For instance, if the assessor in township "A" assessed property at 10 per cent of sale value, the assessor in township "B" at 15 per cent, and the assessor in township "C" at 20 per cent, a county multiplier of 4 applied to the assessments of the 3 townships would not bring them up to the same level.

To correct such ills within a county, Senators W. Russell Arrington of Evanston and Merritt J. Little of Aurora and Representative Louis E. Beckman of Kankakee sponsored remedial legislation at the 70th General Assembly. The first part of the program (S. B. 446) makes it the mandatory duty of the county board of review to equalize assessments at the township level in the same manner in which the State equalizes at the county level. To protect both taxpayer and taxing body, Representative G. William Horsley of Springfield sponsored an amendment to the bill to provide that assessments of a township may not go up or down by more than 25 per cent of the previous year's equalized valuation, additions and deletions excluded.

Part two of the Arrington-Little program was legislation (S. B. 768) to strengthen the board of review. The two members appointed by the county judge must in the future have experience or training in real estate values and property tax administration. In addition, a full time clerk is provided for the board in counties over 25,000 population to collect and analyze property appraisals.

The board of review may meet earlier than the third Monday in June to direct the clerk and go over the data collected by him. This will insure that the board will gain "background" before it performs equalizing duties.

The third part of the program (S. B. 545) which extends the permissive Supervisor of Assessment to all counties over 150,000 population, except Cook and St. Clair. If this office is established, the State will pay 1/2 of the supervisor's salary.

The new program, with an effective date of January 1, 1958, is a good example of home rule legislation. Assessment is a local responsibility; by passing new laws and strengthening existing ones, the General Assembly has provided a solution to a local problem. The solution should work.

LAKE VILLA FIRE PROTECTION DISTRICT
AN ORDINANCE REGULATING THE SETTING OF GRASS FIRES BE IT ORDAINED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE LAKE VILLA FIRE PROTECTION DISTRICT OF LAKE VILLA TOWNSHIP, LAKE COUNTY, ILLINOIS:

SECTION 1: That hereafter it shall be unlawful for any person to start or cause to be started, or

knowingly permit to be started or set on any premises within the FIRE PROTECTION DISTRICT OF LAKE VILLA TOWNSHIP any fire, commonly called a grass fire, for the purpose of burning grass, weeds, leaves or other combustible material, without first obtaining a permit therefor from the Chief of the LAKE VILLA FIRE PROTECTION DISTRICT.

SECTION 2: Any person desiring to set such a fire shall make a written application for such permit addressed to Fire Chief of Lake Villa, which application for permit shall state the location where such fire is to be set, the approximate size of the area to be burned over, and the number of persons who will be in charge of said proposed fire

to guard against its getting out of control. Such application shall further state that the applicant will be responsible for and assume all costs and damages that may result from the setting of such fire, including the costs to the LAKE VILLA FIRE PROTECTION DISTRICT of LAKE VILLA TOWNSHIP of the operation of its fire department in case such fire department shall be called to extinguish such fire, or any fire resulting therefrom.

SECTION 3: Upon the filing with the Fire Chief of such application and complying with the requirements therein before described, said Fire Chief shall, without cost to the applicant, issue a permit pursuant to such application, which permit however, shall be good only for the day on which it is issued, and provided, that no permit shall be issued on such application on any day when the weather is windy or stormy, making the setting of such fire hazardous.

SECTION 4: Nothing in this ordinance shall interfere with burning of leaves or other rubbish by the owner or occupant of the premises on which same are burned if such leaves or rubbish have been raked and piled and the fire is being attended in compliance with the provisions of any other ordinance.

SECTION 5: Any person violating the provisions of this ordinance shall, upon conviction thereof, be subject to a fine of not less than \$5.00 nor more than \$50.00.

SECTION 6: This ordinance shall be in full force and effect from and after its passage, approval and publication.

PASSED by the Board of Trustees of the LAKE VILLA FIRE PROTECTION DISTRICT of LAKE VILLA TOWNSHIP and deposited and filed in my office this 8th day of May, A. D. 1957.

(Signed) Eric E. Anderson
Secretary

READ THIS STARTLING FACT

5 out of 10 smaller cars
wear a Pontiac price tag
—yet none gives you any
of Pontiac's advantages

PONTIAC GIVES YOU UP
TO 8.9% MORE SOLID
CAR PER DOLLAR!

Not one of the smaller cars can give you the heavy-duty construction, the road-hugging hof and solid security that surround you in every Pontiac. Yet Pontiac's the nimblest heavyweight you ever managed—and your Pontiac dealer can show you more than six dozen advanced-engineering reasons why! Pontiac has gone all out to make this genuine big car the best behaved beauty that you ever had the pleasure of boosing. You'll find Pontiac's exclusive Precision-Touch Controls make steering and braking the surest, easiest you've ever experienced! Park it, cruise it, try it in stop-and-go traffic... this is driving the smaller jobs can't duplicate.

PONTIAC GIVES YOU
4 TO 7 INCHES MORE
WHEELBASE!

The small cars extend bumpers and fenders to look big—but Pontiac puts the extra length where it counts—between the wheels! Pontiac's longer stride brackets the bumps instead of riding on them. And this extra length shows up inside, too, in stretch-out space for six footers. Add to Pontiac's bonus in length its all-new suspension system and you have an exclusive Level-Line Ride no car at any price can surpass... and a built-in sense of direction and security that will spoil you for the smaller cars forever!

PONTIAC'S PERFORMANCE
TOPS THE BEST THE
SMALL CARS CAN OFFER—
BY A WIDE MARGIN!

Not one of the smaller cars can measure up to Pontiac Performance. Whether you judge a power plant by engineering statistics or on-the-road performance, Pontiac's Strato-Streak V-8 stands head and shoulders above anything in the low-price field. Your Pontiac dealer will be happy to show you a complete facts-and-figures comparison—then an eye-opening test drive in traffic or out on the highway will supply all the heart-lifting proof you need that Pontiac has separated the men from the boys when it comes to performance!

—AND PONTIAC HAS
ALWAYS BEEN FAMOUS
AS ONE OF AMERICA'S
TOP TRADE-INS!

Maybe it comes as a surprise to you that so much more car can be yours at the same price you've seen on the smaller cars. But there's the fact! And Pontiac is a wonderful investment, too! As you know, it has always commanded a top trade-in. So why not step out of the small-car class and into a Pontiac... there's nothing in your way. Your Pontiac dealer has the keys and an eye-opening offer waiting for you right now!

So why not look and feel like a million—instead of a million others?

NOTE: If you want the ultimate in both economy and extraordinary performance, new Tri-Power Carburetor is available at extra cost on even the lowest priced Pontiac models! It's America's newest power advance and exclusively Pontiac's at so low a cost!

Well Maintained Brakes Are a "Must"

Since no car is safer than its brakes, motorists are advised to be particularly careful during the summer months when the evaporation of inadequate brake fluid may cause "brake fade."

Most modern cars have brake systems that require heavy-duty fluid. Repeated stopping at high speeds frequently raises fluid temperatures to 250 degrees or more, according to tests conducted by the Society of Automotive Engineers. Moderate-duty fluids thin out and evaporate at this temperature, causing brake failure, says the motor club.

When new cars are delivered, the brake systems are filled with heavy-duty fluid. During servicing, however, moderate-duty or some other fluid may be added, lowering the evaporation by as much as 80 degrees.

Although some states have passed laws outlawing the use of moderate-duty fluid in brake systems, it usually is up to the motorist to protect himself by having the brake system checked by a reliable mechanic.

There are numerous other weaknesses that may affect the efficient operation of brakes. If brakes drag, the linings wear out at a rapid rate, braking is uneven, and car control is difficult.

Swerving to one side when the brakes are applied, loss of the cushion effect or positive action, and squeaks in the brakes or the brake pedal are all symptoms that require the immediate attention of a qualified mechanic. Clearance of less than 3 1/2 inches between the pedal and floor board when the brakes are applied also indicate the need for adjustment, the motor club says.

Here are a few hints for avoiding excessive brake wear: Have brakes inspected periodically and adjusted immediately when trouble appears; avoid overusing your brakes—slowing down when a stop is anticipated will eliminate much of your braking; shift into low gear when going down steep grades, using the brakes only intermittently; avoid the habit of "riding" the brake pedal; guard against damage to brakes caused by overlubrication of wheel and axle bearings, or by driving through water or sand.

Steps are being taken at Kansas State college to isolate strains of so-called "lowland switchgrass." This type of grass is larger and coarser than the upland form and may have a place in low-lying areas where moisture is less limited.

Careers for Your Child

TEACHER
Teaching is a rewarding career. It brings dignity of position in the community, security of steady employment, a comfortable income for the ambitious. Most important, it provides the sense of doing a meaningful, important job.

The whole wide world is the teacher's province. Interested in mathematics? History? Sports? Literature? Traffic safety? Our vast school system offers a chance to earn a living by specializing in almost any subject.

What does it take to be a teacher? Natural curiosity, good health and character, tact, imagination, a real interest in young people. Write and ask New York Life Insurance Company, Dept. CF, 51 Madison Avenue, New York City, for booklet, "Should You Be A Teacher?"

Lake Villa

Mr. Fred Bartlett, Correspondent
Tel. Elliot 6-4454

Mr. and Mrs. Clarence Blumenschein were dinner guests last Thursday at the home of Mr. and Mrs. Roscoe Baker of Rockford.

Mr. and Mrs. Russell Nickerson and family have returned from a week's vacation at Woodruff, Wis.

Mr. and Mrs. Lester Bunkelman and family have just returned from a vacation at Woodruff, Wis. Lela Barnstable entertained the Canasta club at her home Wednesday evening. Mrs. Marjorie Helm of Waukegan was an out of town guest.

The next regular meeting of the Royal Neighbors will be Tuesday, July 30 at the village hall at 8 p. m. New members will be initiated.

The Royal Neighbors officers' club met at the home of Georgia Avery Friday afternoon to make

final plans for the salad bar luncheon and card party they will sponsor in August. More details at a later date.

Clifford Gerber, Jr., returned Saturday from a two weeks camping trip in Wisconsin.

Mr. and Mrs. Carl Bruchner of Waukegan and daughters Loraine and Marion from Baltimore visited Tina Gerber and Arlene Gedman last Tuesday.

Mrs. Victor Young of Fox Lake was a Lake Villa visitor Monday. Mrs. Elneora Teltz of Chicago was a visitor at the home of her sister, Tena Gerber and Mrs. Arlene

Gedman.

Mr. and Mrs. Art Roeber of Sheboygan, Wis., with their family were guests at the home of Mrs. Tina Gerber and Arlene Gedman.

The Prince of Peace Parish of Lake Villa will sponsor a summer Festival and Chicken Bar-B-Q on Saturday, Aug. 3 and Sunday, Aug. 4. There will also be a bake sale and many other booths. Money raised will be for the new church and school now being erected on Rte. 21 and 132.

Fred Bartlett, Jr., and daughter, Carla, were visitors at the home of Mr. and Mrs. Raymond Bartlett of Waukegan.

Arlene Gedman and Tina Gerber were called to Troy Center, Wis., to attend the funeral of a granddaughter's baby who passed away last week.

Donna Rae and Raymond Eugene Bartlett were baptized at the Lake Villa Methodist church Sunday. Their parents enjoyed a turkey dinner at the home of their parents, Mr. and Mrs. Fred Bartlett, Sr. Other guests were Mr. and Mrs. Clifford Bartlett and daughters, Suzann and Sandra, and Mr. and Mrs. Bernard Schneider and family.

James Fish and Philip Wagner left Sunday to return to the Marine Base at Camp Pendleton, California. James' parents, Mr. and Mrs. Jacob

Fish will drive to California with them.

Della Rogers, mother of Mrs. Ralph Abner, is still a patient at the Lake County hospital. She is somewhat better, but still unable to come home.

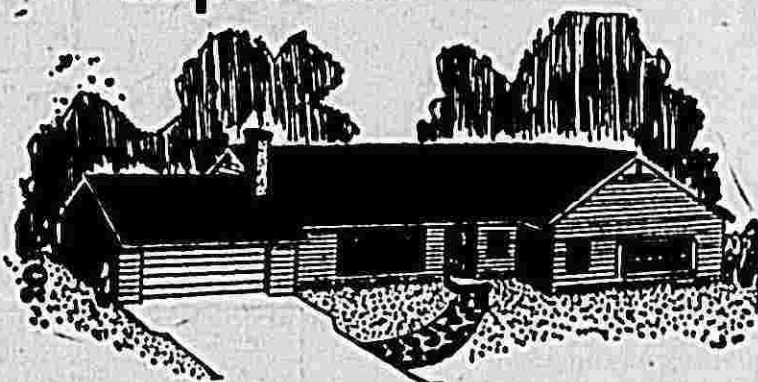

Sunday, August 4 at 3:00 p. m., ground breaking ceremony for the new Lake Villa Methodist church will take place at the site where the new church will be located. It will be an impressive ceremony and all members and people interested in the church are urged to attend.

Steve Hurdish of Waukegan and Mr. and Mrs. Harold Fillweber and

daughter of Antioch were visitors at the home of Evert Galiger Sunday.

Witchcraft Still Has a Place in This Modern World

LOS ANGELES—Burn witches. If you will, but you won't kill witchcraft. It's still alive and cackling, brewing deeds of dark evil, even in California's bright sunshine.

Dr. Wayland Hand, professor of German and folklore at the University of California, Los Angeles, said that superstition and witchcraft are among the forms of folklore which are still very much alive.

He defined witchcraft as a belief in and a fear of supernatural creatures and forces with power to do evil and to cause physical harm. These creatures are often thought to be in league with the Devil himself.

"Witchcraft is among the oldest forms of folklore and is still known in its primitive forms all over the world," Dr. Hand said.

From his extensive files, which he someday plans to convert into a published Dictionary of American Popular Beliefs and Superstitions, and from Western Folklore, published by the University of California Press, he drew a few examples of present-day witchcraft:

A woman in the San Jose area was jailed earlier this year for offering to cure a child's deafness with dirt stolen from a cemetery on nine consecutive midnights. She was arrested while accepting a down payment from the child's parents.

Wise Credit Use Called a 'Thriff'

CHICAGO—Intelligent use of installment buying has been called an actual thriff.

"The dynamic thriff of the American people has been a major factor in keeping our economy at its present high level," says Richard E. Meier, chairman of the executive committee of the American Finance Conference, national association of independent sales finance companies.

"With the intelligent use of installment buying," Meier declares, "American consumers have raised their standard of living, increased their personal capital assets, and kept national employment at a record peak fulfilling the demand for new products."

Meier emphasized that installment buying is a form of budgeted saving that permits families to own cars, homes and appliances they need and want. People are not "going into debt," he said, but are acquiring capital assets out of current income. They are accumulating possessions with substantial cash value while holding on to their cash reserves for future emergencies.

Water Supply May Be Critical in Future

UNIVERSITY PARK, Pa.—The tremendous growth of population, agriculture and industry in recent years has caused the spectre of a water shortage to plague government and industrial leaders.

Dr. Wakefield Dort, Jr., assistant professor of geology at the Pennsylvania State University, says the greatest possible use must be made of existing water supplies, new sources must be located, and basic research concerning water problems encouraged if serious water shortages are to be avoided.

Even Pennsylvania, a State which has a fairly good rainfall average, will face serious trouble if steps are not taken soon, according to the Penn State geologist.

"In most parts of the State there are supplies of surface and subsurface water sufficient to satisfy local demands," Dort says. "However, in some areas, especially centers of recent population increases and the sites of rapid industrial expansion, supplies of chemically and biologically pure water are far from adequate."

Cockroach Is Lending Science Helping Hand

LOS ANGELES—At last they've found a use for the pesky cockroach.

Make him radioactive, and he becomes a useful tool in the quest for more effective insecticides and in furthering the knowledge of heredity chemistry.

Researchers at the University of California are using radioactive carbon to trace pathways of life chemistry in the cockroach. In general they are seeking the ways in which these pathways differ in insects and higher animals, including humans.

Thus the lowly cockroach may contribute to the doom of his own kind as well as other troublesome insects to the benefit of mankind.

Camper's Haven
WASHINGTON—Some 8,000 Explorer Scouts encamp each summer at Philpot Scout Ranch, the largest such camp in the world and a boy's Wild West dream come true. Located in the Rockies near Cimarron, New Mexico, the ranch is traversed by the historic Santa Fe Trail.

Is "habit buying" keeping you from getting the most for your money?

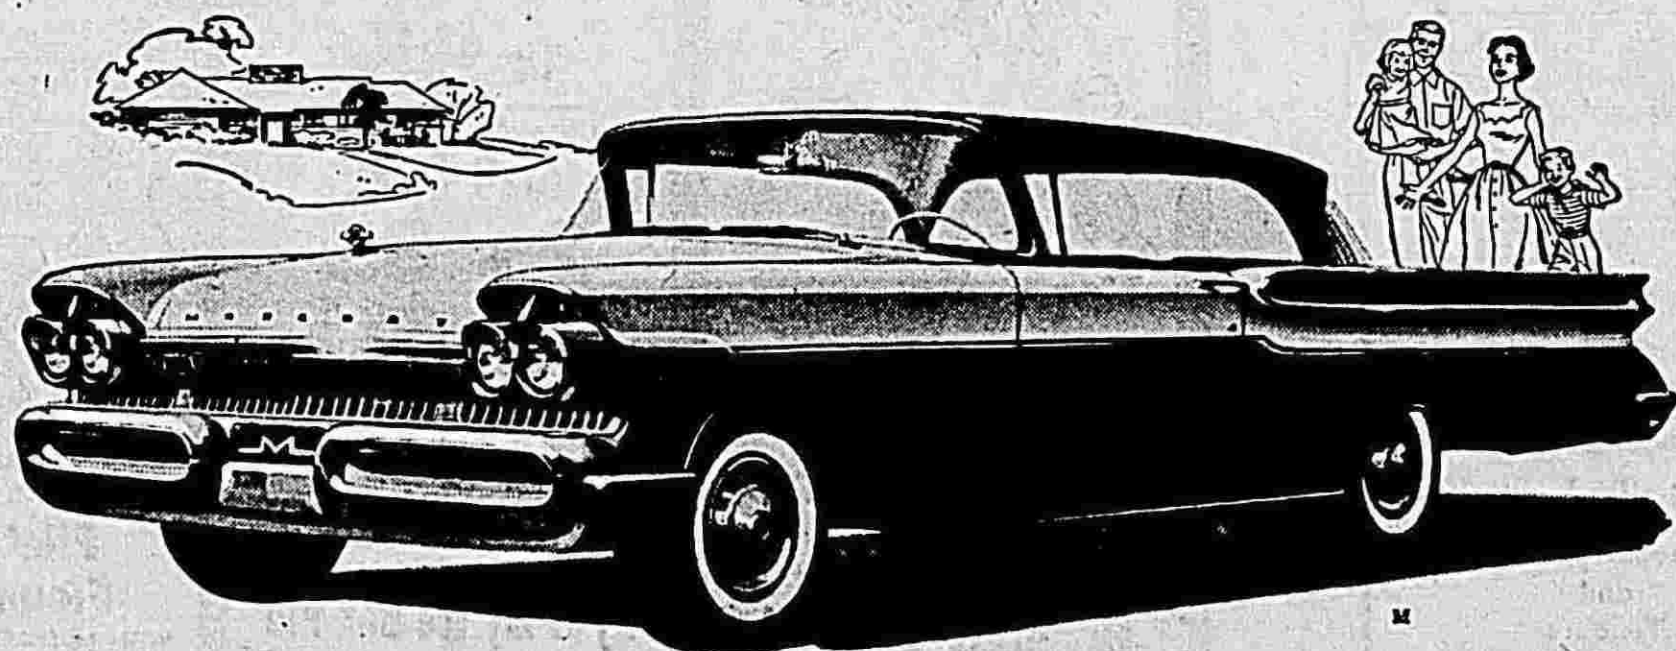

Be sure to compare the latest figures. The Big M gives you more.
Here's how Mercury beats its competition in 8 big ways.

- ★ **WIDEST CAR IN ITS FIELD**—The Big M is over 64 feet wide. Only America's three most expensive cars can match it—at a cost of at least \$2,000* more!
- ★ **LOWEST CAR IN ITS FIELD**—The Big M is built closer to the ground than other cars. It's scarcely more than 43½ feet high—and without loss of headroom!
- ★ **MORE ROOM INSIDE**—To match the Monterey's hip room and rear seat leg room you have to go out of Mercury's field—pay \$1,000* more!
- ★ **HIGHEST STANDARD COMPRESSION**—It would cost you over \$500* more to match Mercury's standard compression (9.75 to 1) in any other car.

- ★ **MOST ADVANCED ROAD LIGHTING**—You would have to pay over \$130* more to get any other car with a real 4-beam headlamp system.

- ★ **BIGGEST BRAKES**—You'd have to pay over \$130* more to match them in any other car. Mercury has bigger brakes than most of the highest priced cars.

- ★ **MOST NEW FEATURES**—No other car at any price offers you any of these Big M dream-car features: Merc-O-Matic Keyboard Control, Floating Ride, power seat that "remembers," and Power-Booster Fan in Montclair series.

- ★ **MOST ADVANCED STYLING**—When you step into a Mercury you step out of the ordinary. Mercury's exclusive Dream-Car Design is shared with no other car. And this is a step that can save you money. Why not stop in and get all the money-saving figures today?

*Based on factory-suggested retail delivered price.

(B) Stationery, postage and supplies	50.00
(C) Civil defense	150.00
TOTAL	\$ 300.00

Jobs Overseas For Two Years Offered by U. S. Department of State For Young Stenographers

Two years overseas—with pay—may sound too good to be true, but it is an opportunity now being offered to young stenographers, typists and clerks who are willing to travel anywhere in the world.

Miss Esther Rice and Mrs. Donna Livesay, Personnel Officers from the U. S. Department of State, have set up shop at the Illinois State Employment Service, 73 West Washington street, Chicago, to interview young men and women who are high school graduates, between the ages of 21 and 35, single with no dependents and U. S. citizens in excellent health for jobs with the foreign Service in embassies and consulates abroad.

The starting salary for qualified secretaries is \$3,800. A typing speed of 50 words a minute and shorthand speed of 100 words a minute is required. Stenographers who type 50 words a minute and write shorthand at 80 words a minute start at a salary of \$3,390 a year, as do communications clerks (typists with a speed of 45 words a minute will be trained for communications work); and mail and record clerks with a typing speed of 35 words a minute. Mail and pouch clerk and general clerk positions which also require a typing speed of 35 words a minute are open to men only and pay the same entrance salary of \$3,390 a year. All salaries are supplemented by overseas allowances and free housing. Employees have liberal vacations while overseas and, between each two-year tour of duty, six weeks' home leave at Government expense. All applicants must have three years of general office experience.

Typists 18 years of age who can type 40 words a minute and stenographers who can, in addition, write shorthand at 80 words a minute, are being interviewed for positions in the Department of State's headquarters in Washington, D. C. The starting salaries range from \$3,175 to \$3,415 a year. No previous experience is required. "These jobs are tailor-made for young people who may wish to enter the Foreign Service but do not yet qualify from the standpoint of experience or age," Miss Rice said.

Interviews are being conducted at the Illinois State Employment Service, 73 West Washington st., Chicago, from July 22 through Aug. 10. Office hours are from 8:30 A. M. to 4:30 p. m. Monday through Friday and from 9 a. m. to noon on Saturdays. Additional information and special appointments can be obtained by telephoning Financial 6-3960.

Many New Laws

Signed by Stratton

Governor William G. Stratton signed into law a series of House bills that round out his traffic safety program. The last of the bills set up a drivers' education program in high schools; raise driver's license fees to \$3 to pay for the program; require examination for any applicant 70 years of age or over who wants to renew his driver's license; provide for an increase in the state police force from 600 to 1100; allow use of chemical analysis in determination of driver intoxication.

Governor Stratton also signed into law a measure which creates a Department of Audits headed by an auditor general. The new law establishes a system of post audits for all fiscal matters and financial transactions of the state.

A bill which increased the amount of bond posted by the auditor of public accounts from \$50,000 to \$500,000 was also signed by the governor.

House Bill 157, which exempts

For Week July 22-27

farm and dump trucks and similar vehicles from the 1955 splash guard law, was also signed.

Bills vetoed by Governor Stratton included one which would have legalized pari-mutuel gambling on the game jai alai in Illinois and a bill which would have created six 3-day holiday week ends each year

by observing some holidays on the Mondays nearest the legal dates. Prepared special formula feeds now make up over one-fifth of all feed concentrates fed to livestock and poultry—more than twice as much as was used in this country 20 years ago.

Warm weather and boiled ham just seem to go together. On a sandwich tray, on a picnic or as the meat course of a summer supper, boiled ham is always good—but only if it's fresh—really fresh!

That's why boiled ham is freshly sliced every day at Jewel. From years of experience your Jewel Market Manager can estimate how much boiled ham Jewel customers will buy on a particular day of the week. So he cuts and packages only enough for that day—thereby assuring you of strictly fresh ham every time.

Lean and tender... Mince sliced... always fresh—no wonder Jewel boiled ham is better!
